OVERVIEW

Lewis Group experienced steadily improving sales and credit collections over the past six months. Merchandise sales increased by 11.2% and revenue by 9.8%, while debtor costs as a percentage of net debtors declined from 5.0% to 4.8%. This improved trading and operating performance resulted in a 14.5% growth in headline earnings per share.

After maintaining the interim dividend at 144 cents per share for the past two challenging years, the board is pleased to advise the declaration of an interim dividend of 156 cents per share, an increase of 8.3%.

TRADING AND FINANCIAL PERFORMANCE

The strategy of sourcing exclusive merchandise continued to benefit the group. Gross margin adjusted for currency losses, improved from 33.4% at the financial year-end in March 2010 to 34.4%.

Furniture and appliance sales increased by 11.1% with electronic goods sales up 11.7%. Merchandise sales in Lewis which account for 82.6% of total sales, increased by 11.2%, with Best Home and Electric sales growing by 16.3%. Pleasingly, credit sales increased from 68.5% to 71.7% of total sales, driven mainly by targeted customer promotions at store level and the launch of new furniture and appliance ranges.

Revenue from ancillary services, comprising monthly service and initiation fees on credit contracts, increased by 13.1% as a result of the higher credit sales mix. Insurance revenue grew by 15.4% owing to the higher proportion of longer term contracts now in the debtor base. Finance charges increased by only 1.1% reflecting the impact of lower interest rates.

Operating costs, excluding debtor costs, increased by 10.5%. The main contributors to this increase were higher performance-related employment costs on improved trading, investment in IT system upgrades, marketing for the launch of My Home and the operating costs associated with the opening of 21 new stores during the period.

Operating profit margin improved to 22.0% (2009: 21.8%) and translated into operating profit growth of 10.5%. Headline earnings per share increased by 14.5% to 332.5 cents (2009: 290.5 cents).

Inventory has been tightly managed and the improved inventory turn of 5.2 times is within the target range 5 to 5.5 times.

Cash generated from operations increased by R214 million to R413 million as the level of investment in longer term business stabilised. Consequently the gearing ratio improved to 25.7% from 27.4%.

DEBTOR MANAGEMENT

Debtor costs reduced from 5.0% to 4.8% of net debtors as collections continued to improve over the period.

An analysis of the debtors book, which is detailed in the accompanying table, shows an improvement of customers in the "satisfactory paid" category which now comprise 71.6% of net debtors compared to 69.6% last year. The number of customers reflected in the slow-paying and non-performing categories decreased. Due to the higher capital investment in the longer term contracts, the impairment provision increased from 17.9% to 18.4% of net debtors.

STORE EXPANSION

The group's store footprint increased to 565 following the opening of eleven Lewis and nine Best Home and Electric stores over the past six months. Eight of the new Lewis outlets are the smaller format stores. The group will be opening 40 to 45 new stores for the 2011 financial year.

The new trading format, My Home, launched successfully during June 2010. Thirteen Lifestyle Living stores were relaunched as My Home and the first new store opened in August. Trading performance for the first three months has been in line with expectations as the brand attracted the desired proportion of credit-based sales.

PROSPECTS

The outlook for our consumer continues to improve steadily. Higher real wage increases granted across most sectors of the economy are positive while retrenchments and job losses in our customer base appear to have stabilised. The momentum in collections has been encouraging and our store expansion plan is on track. The festive season trading period will again be strongly supported by merchandise and promotional activity.
