Notes to the company annual financial statements	92
Shareholders' information	95

## 05 APPENDICES TO THE AUDIT COMMITTEE REPORT

Appendix A – Audit committee profiles	97
Appendix B – Audit committee meeting attendance	98

## COMPANY INFORMATION

### ANNUAL FINANCIAL STATEMENTS

The annual financial statements for the year ended 31 March 2023 comprise Lewis Group Limited ("the company") and its subsidiaries (together referred to as "the Group").

### PRIMARY STATEMENTS

The primary statements are included in the beginning of the annual financial statements and include note references to specific underlying detailed notes.

### NOTES TO THE ANNUAL FINANCIAL STATEMENTS

The notes to the annual financial statements have been ordered on the basis set out in note 1.1.

### ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these annual financial statements are included in the specific notes to which they relate and are indicated with a light blue background.

### SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The areas involving a high degree of judgement or complexity, or areas where assumptions and estimates are significant to the annual financial statements, are included in the specific notes to which they relate and are indicated with a light grey background.

# DIRECTORS’ RESPONSIBILITY STATEMENT

Management have prepared the annual financial statements in accordance with International Financial Reporting Standards (“IFRS”) and the Companies Act of South Africa.

The annual financial statements, which present the results and financial position of the company and its subsidiaries, are the responsibility of the directors.

In fulfilling its responsibility, the Board of directors (“the Board”) has approved the accounting policies applied and established that reasonable and sound estimates and judgements have been made by management when preparing the annual financial statements.

Adequate accounting records and an effective system of internal controls have been maintained to ensure the integrity of the underlying information. Internal audit has performed a written assessment confirming the effectiveness of the company’s system of internal control and risk management, including internal financial controls. The Board is satisfied that the system of internal controls, which includes internal financial controls, operates effectively.

A well-established control environment, which incorporates risk management and internal control procedures, exists to provide reasonable, but not absolute, assurance that assets are safeguarded and the risk facing the business is being adequately managed. The Board confirms that during the period under review the Group has maintained an efficient and effective process to manage key risks. The directors are not aware of any current or anticipated key risks that may threaten the sustainability of the business.

The Board has reviewed the business of the Group together with budget and cash flows for the year to 31 March 2024 as well as the current financial position and have no reason to believe that the Group will not be a going concern for the foreseeable future. The going concern basis has therefore been adopted in preparing the annual financial statements.

PricewaterhouseCoopers Inc. (“PwC”), as external auditors, have examined the annual financial statements and their report appears on pages 11 and 16.

The annual financial statements of the Group and the company for the year ended 31 March 2023, which appear on pages 17 to 96 have been approved by the Board and signed on their behalf by:

  
**H Saven**  
Chairman

Cape Town  
25 May 2023

  
**J Enslin**  
Chief executive officer

  
**J Bestbier**  
Chief financial officer

# CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER’S RESPONSIBILITY STATEMENT

In line with paragraph 3.84(k) of the JSE Limited (“JSE”) Listings Requirements, the Chief executive officer and Chief financial officer hereby confirm that:

- the annual financial statements set out on pages 17 to 96, fairly present in all material respects the financial position, financial performance and cash flows of the issuer in terms of IFRS;
- to the best of our knowledge and belief, no facts have been omitted, or untrue statements made that would make the annual financial statements false or misleading;
- internal financial controls have been put in place to ensure that material information relating to the issuer and its consolidated subsidiaries have been provided to effectively prepare the annual financial statements of the issuer;
- the internal financial controls are adequate and effective and can be relied upon in compiling the annual financial statements, having fulfilled our role and function as executive directors with primary responsibility for implementation and execution of controls;
- where we are not satisfied, we have disclosed to the audit committee and the auditors any deficiencies in design and operational effectiveness of the internal financial controls and have taken steps to remedy the deficiencies; and
- we are not aware of any fraud involving directors.

  
**J Enslin**  
Chief executive officer  
25 May 2023

  
**J Bestbier**  
Chief financial officer

# PREPARATION AND PRESENTATION OF AUDITED ANNUAL FINANCIAL STATEMENTS

The preparation of the audited annual financial statements was supervised by Mr J Bestbier CA(SA).

# COMPANY SECRETARY CERTIFICATE

## COMPLIANCE WITH THE COMPANIES ACT, 2008

In terms of the Companies Act and for the year-ended 31 March 2023, I certify that the company has filed all returns and notices required by the Companies Act with the Companies and Intellectual Property Commission and that all such returns and notices are true, correct and up to date.

  
**MO Gibbons**  
Company secretary  
25 May 2023

# AUDIT COMMITTEE REPORT

for the year ended 31 March 2023

The audit committee (“the committee”) has pleasure in submitting its report for the year-ended 31 March 2023 in compliance with the Companies Act, No. 71 of 2008, as amended (“the Companies Act”).

## INTRODUCTION

The committee is a statutory committee which carries out its statutory duties in accordance with the Companies Act. In addition to its statutory duties the committee provides independent oversight over external audit, internal audit and the finance function in terms of the recommendations of the King IV Report on Corporate Governance (“King IV”). The committee operates in accordance with a documented charter and complies with all relevant legislation, regulation and governance codes. The committee’s terms of reference are reviewed annually and approved by the Board.

The committee executed its duties in terms of the requirements of the Companies Act and King IV.

The committee acts as the audit committee for all the subsidiaries in the Lewis Group except for Monarch Insurance Company Limited (“Monarch”) which has its own audit and risk committee.

## OBJECTIVES

The objectives of the committee are:

- To assist the Board to discharge its duties relating to the safeguarding of assets, the operation of adequate systems and controls, overseeing integrated reporting, reviewing of financial information and the preparation of interim and annual financial statements in compliance with all applicable legal requirements and accounting standards.
- To facilitate and promote communication and liaison between the Board and the company’s management in respect of the matters referred to above.
- To recommend the introduction of measures which the committee believes may enhance the credibility and objectivity of financial statements and reports concerning affairs of the company.
- To perform their statutory functions under section 94 of the Companies Act.
- To advise on any matter referred to the committee by the Board.

## RELATIONSHIP WITH THE MONARCH AUDIT AND RISK COMMITTEE

- Due to the integrated nature of the Group’s systems and processes, the Lewis Group audit committee has responsibility relating to overseeing:
  - internal and external audit management; and
  - maintenance of an effective internal control system.
- In order for the Monarch audit and risk committee to discharge its responsibilities under the Insurance Act, the Lewis Group audit committee refers any issues to the Monarch audit and risk committee where such issues impact on Monarch.
- The duty and scope of the Monarch audit and risk committee in monitoring the compliance with legal and regulatory requirements has been extended to include the Financial Advisory and Intermediary Services Act due to its interrelationship with the insurance activities of the Group.
- The minutes of all Monarch audit and risk committee meetings are tabled at the meetings of the Lewis Group audit committee.

## MEMBERSHIP

The committee consists of four independent non-executive directors:

Daphne Motsepe (Chairperson)

Prof. Fatima Abrahams

Brendan Deegan

Tapiwa Njikizana

During the year, the following changes to the membership of the committee took place:

Brendan Deegan was appointed as a member of the committee on 15 August 2022.

Biographical details of the committee members are provided in Appendix A.

The Chief executive officer, Chief financial officer, other relevant members of management and representatives of the internal and external auditors attend the meetings as invitees.

The committee meets separately with external auditors, without members of executive management being present, at least once a year. The effectiveness of the committee is assessed as part of the annual board and committee self-evaluation process.

# AUDIT COMMITTEE REPORT CONTINUED

for the year ended 31 March 2023

## COMMITTEE ACTIVITIES

The committee met four times during the year under review.

Attendance of the members has been set out in Appendix B.

The committee attended to the following material matters:

### Financial statements

As required by its terms of reference, the committee performed the following with respect to the financial statements:

- Reviewed the interim results and year-end financial statements, including the public announcements of the company’s financial results, and made recommendations to the Board for their approval. In the course of its review the committee:
  - took appropriate steps to ensure that the financial statements were prepared in accordance with International Financial Reporting Standards (“IFRS”);
  - considered the appropriateness of accounting policies, disclosures and material judgements applied; and
  - completed a detailed review of the going concern assumption and confirmed that the going concern assumption was appropriate in the preparation of the financial statements.

### IFRS 17 *Insurance Contracts* implementation project

IFRS 17 will become effective for the Group during the 2024 financial year. Refer note 24.2 to the financial statements.

The committee is responsible for the overall governance of the project and monitors the progress of the project team and considers material judgements in implementing IFRS 17. The project team provides feedback at each committee meeting.

### Integrated Report

The committee fulfils an oversight role regarding the company’s Integrated Report and the reporting process.

The committee considers the company’s Integrated Report and assesses its consistency with operational, financial and other information known to the audit committee members, and for consistency with the annual financial statements.

The committee satisfies itself that the Integrated Report will be materially accurate, complete, reliable and consistent with the annual financial statements.

### External auditors

With regards to external audit the committee performed the following functions:

- Reviewed the independence of PwC, the company’s external auditors, and the designated auditor, before recommending to the Board that their re-election be proposed to shareholders (refer section on Independence of External Auditors).
- Approved, in consultation with management, the audit fee and engagement terms for the external auditors for the 2023 financial year. The fees paid to the auditors are disclosed in note 24.3 to the annual financial statements.
- Determined the nature and extent of allowable non-audit services and approved the policy for the provision of non-audit services. It is the policy of the Group that the auditor is restricted from rendering accounting, IT consulting services, company secretarial, internal audit and human resource services.
- Reviewed and approved the external audit plan, ensuring that material risk areas were included and that coverage of the significant business processes was acceptable.
- Reviewed the external audit reports and management’s response, considered their effect on the financial statements and internal financial control.

The committee was not required to deal with any complaints relating to accounting practices or internal audit, nor to the content or audit of the Group’s financial statements, the internal financial controls and related matters.

In accordance with the mandatory audit firm rotation rule issued by the Independent Regulatory Board for Auditors, the company conducted a formal tender process during last year to appoint a new firm of external auditors. The committee has recommended Ernst & Young Inc. (“EY”) as the external auditor and Tina Lesley Rookledge as the engagement partner with effect from the financial year commencing 1 April 2023. The appointment is subject to approval by shareholders at the Annual General Meeting to be held in October 2023. PwC’s appointment will be terminated upon the conclusion of the audit of the financial year ending 31 March 2023.

The committee has overseen the appointment and transition to EY, the new recommended auditor. EY has engaged in discussions with current auditors, PwC, as well as attended audit committee meetings.

# AUDIT COMMITTEE REPORT CONTINUED

for the year ended 31 March 2023

## COMMITTEE ACTIVITIES continued

### Internal audit

With regards to internal audit the committee performed the following functions:

- Reviewed and approved the existing internal audit charter which ensures that the Group's internal audit function is independent and has the necessary resources, standing and authority within the organisation to enable it to discharge its duties.
- Satisfied itself as to the credibility, independence and objectivity of the internal audit function.
- Reviewed and approved the annual internal audit plan, ensuring that material risk areas were included and that the coverage of significant business processes was acceptable.
- Reviewed the quarterly internal audit reports, covering the effectiveness of internal control, material fraud incidents and material non-compliance with group policies and procedures. The committee is advised of all internal control developments and advised of any material losses, with none being reported during the year.
- Considered and reviewed with management and internal auditors any significant findings and management responses thereto in relation to reliable financial reporting, corporate governance and effective internal control to ensure appropriate action is taken.
- Oversaw the co-operation between internal audit and external auditors, and the committee is satisfied that the company has optimised the assurance coverage obtained from management, internal and external assurance providers in accordance with an appropriate combined assurance model.
- Assessed the performance and qualification of the internal audit function and found them to be satisfactory.

### Internal financial control and compliance

- Reviewed and approved the Group's existing treasury policy and reviewed the quarterly treasury reports prepared by management.
- Reviewed the quarterly legal and regulatory reports setting out the latest legislative and regulatory developments impacting the Group.
- Reviewed the quarterly report on taxation.
- Reviewed information technology reports.
- Considered and, where appropriate, made recommendations on internal financial control.

Internal audit has performed a written assessment of the effectiveness of the company's system of internal control and risk management, including internal financial controls. This written assessment by internal audit, as well as other information available to the committee, formed the basis for the committee's recommendation to the Board, on the effectiveness of the system of internal controls to be included in the Integrated Report.

### Governance of risk

The Board has assigned oversight of the company's risk management function to the risk committee. The minutes of the risk committee are made available to the audit committee to assist it in fulfilling its oversight role with respect to financial reporting risks arising from internal financial controls, fraud and information technology risks.

### Evaluation of expertise and experience of the Chief financial officer and finance function

- In terms of the JSE Listings Requirements, the committee satisfied itself as to the appropriateness of the expertise and experience of the Group's Chief financial officer.
- The committee has considered and has satisfied itself of the appropriateness of the expertise and adequacy of resources of the finance function and experience of the senior members of management responsible for the financial function.

# AUDIT COMMITTEE REPORT CONTINUED

for the year ended 31 March 2023

## INDEPENDENCE OF EXTERNAL AUDITORS

The committee is satisfied that PwC is independent of the Group. This assessment was made after considering the following:

- Confirmation from the external auditors that they, or their immediate family, do not hold any significant direct or indirect financial interest or have any material business relationship with Lewis. The external auditors also confirmed that they have internal monitoring procedures to ensure their independence.
- The auditors do not, other than in their capacity as external auditors or rendering permitted non-audit services, receive any remuneration or other benefits from the Group.
- The auditor's independence was not impaired by the non-audit work performed having regard to the quantum of audit fees relative to the total fee base and the nature of the non-audit work undertaken.
- The auditor's independence was not prejudiced as a result of any previous appointment as auditor. In addition, an audit partner rotation process is in place in accordance with the relevant legal and regulatory requirements.
- The criteria specified for independence by the Independent Regulatory Board for Auditors.
- The audit firm and the designated auditor are accredited with the JSE.

The designated auditor is Rashaad Fortune who was appointed on 28 October 2022.

The committee confirms it has functioned in accordance with its terms of reference for the 2023 financial year.

**D Motsepe**  
*Chairperson, Audit committee*

23 May 2023

# DIRECTORS’ REPORT

for the year ended 31 March 2023

## NATURE OF BUSINESS

Lewis Group Limited is a holding company listed on the JSE, operating through two main subsidiaries, Lewis Stores Proprietary Limited and Monarch Insurance Company Limited.

The Group offers a selected range of furniture and appliances through 492 Lewis, 154 Best Home and Electric and 151 Beares stores. Sales are mainly on credit. United Furniture Outlets (“UFO”) is a cash furniture retailer with a retail footprint of 43 stores.

Monarch Insurance Company Limited, the Group’s insurer, offers optional microinsurance products to South African customers.

In addition, there are also trading subsidiaries in Botswana, Lesotho, Namibia and Eswatini operating under the Lewis, Best Home and Electric and Beares brands. The store presence outside South Africa now amounts to 134 stores.

The nature of the business of the subsidiaries is set out in note 23.

## REVIEW OF FINANCIAL RESULTS AND ACTIVITIES

The financial results and affairs of the Group are reflected in the annual financial statements set out on pages 17 to 96.

## SEGMENTAL ANALYSIS

Segmental information is set out in note 8 to the annual financial statements.

## SHARE CAPITAL

During the financial year, 5 520 661 shares (2022: 8 756 200 shares) were repurchased in terms of section 48 of the Companies Act.

Refer to note 15.4 for more detail. The number of shares in issue at the end of the financial year is 57 259 052 (2022: 62 779 713).

## TREASURY SHARES

The Lewis Employee Share Incentive Scheme Trust (“the Trust”) effectively holds 173 545 shares (2022: 108 249 shares), all of which will be utilised to cover share awards granted to executives.

# DIRECTORS’ REPORT CONTINUED

for the year ended 31 March 2023

## DIVIDENDS

The following dividends have been declared or proposed for the financial year-ended 31 March 2023:

	Dividend per share	Date declared	Date payable
Interim – declared	195 cents	24 November 2022	23 January 2023
Final – proposed	218 cents	25 May 2023	24 July 2023
For the year	413 cents		

Notice is hereby given that a final gross cash dividend of 218 cents per share in respect of the year-ended 31 March 2023 has been declared payable to holders of ordinary shares. The number of shares in issue as of the date of declaration is 57 259 052. The dividend has been declared out of income reserves and is subject to a dividend tax of 20%. The dividend for determining the dividend tax is 218 cents and the dividend tax payable is 43.6 cents for shareholders who are not exempt. The net dividend for shareholders who are not exempt will therefore be 174.4 cents. The dividend tax rate may be reduced where the shareholder is tax resident in a foreign jurisdiction which has a Double Tax Convention with South Africa and meets the requirements for a reduced tax rate. The company's tax reference number is 9551/419/15/4.

The following dates are applicable to this declaration:

Last date to trade “cum” dividend	Tuesday, 18 July 2023
Date trading commences “ex” dividend	Wednesday, 19 July 2023
Record date	Friday, 21 July 2023
Date of payment	Monday, 24 July 2023

Share certificates may not be dematerialised or rematerialised between Wednesday, 19 July 2023 and Friday, 21 July 2023, both days inclusive.

## DIRECTORS

The directors as at 31 March 2023 are as follows:

- Mr Hilton Saven
- Prof. Fatima Abrahams
- Mr Jacques Bestbier
- Mrs Adheera Bodasing
- Mr Brendan Deegan (Appointed 15 August 2022)
- Mr Johan Enslin
- Mrs Daphne Motsepe
- Mr Tapiwa Njikizana

## COMPANY SECRETARY

Mrs MO Gibbons was appointed as company secretary with effect from 1 June 2022. The address of the company secretary is that of the registered offices as stated on page 1.

## DIRECTORS' REPORT CONTINUED

for the year ended 31 March 2023

### DIRECTORS' INTERESTS

At 31 March 2023, the directors' beneficial direct and indirect interest in the company's issued shares were as follows:

	2023		2022	
	Direct	Indirect	Direct	Indirect
H Saven		6 440		6 440
J Bestbier	126 573	126 583	87 932	116 566
J Enslin	581 077	205 269	581 077	189 473
	707 650	338 292	669 009	312 479

There has been no change in the above directors' interest between the end of the financial year and the date of approval of the annual financial statements.

Full details of the terms and conditions in relation to these share awards are set out in note 18.2 to the annual financial statements.

During the course of the year, no director had a material interest in any contract of significance with the company or any of its subsidiaries that could have given rise to a conflict of interest.

No material related party transactions in terms of the JSE Listings Requirements took place between the Group and its directors or their associates, other than remuneration for services rendered to the company as set out in note 18.2 to the annual financial statements.

### SUBSIDIARY COMPANIES

Details of the company's subsidiaries are set out in note 23.

The company's interest in the aggregate profits and losses after taxation of the subsidiary companies is as follows:

	2023 Rm	2022 Rm
Profit	416.2	491.9
Losses	(9.1)	(8.8)

### BORROWING POWERS

Borrowings were R367.5 million at 31 March 2023 (2022: R80.8 million). Borrowings are subject to the treasury policy adopted by the Board. In terms of the Memorandum of Incorporation, the Group has unlimited borrowing powers.

## INDEPENDENT AUDITOR'S REPORT

to the Shareholders of Lewis Group Limited

### REPORT ON THE AUDIT OF THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS

#### Our opinion

In our opinion, the consolidated and separate financial statements present fairly, in all material respects, the consolidated and separate financial position of Lewis Group Limited (the Company) and its subsidiaries (together the Group) as at 31 March 2023, and its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa.

#### What we have audited

Lewis Group Limited's consolidated and separate financial statements set out on pages 17 to 94 comprise:

- the consolidated and company balance sheets as at 31 March 2023;
- the consolidated income statement for the year then ended;
- the consolidated and company statements of comprehensive income for the year then ended;
- the consolidated and company statements of changes in equity for the year then ended;
- the consolidated and company cash flow statements for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated and separate financial statements* section of our report.

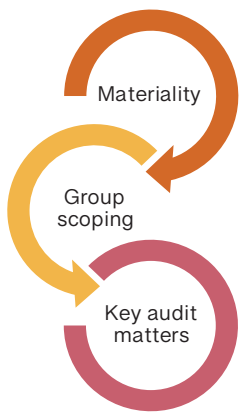

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Group in accordance with the Independent Regulatory Board for Auditors' *Code of Professional Conduct for Registered Auditors* (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)*.

#### Our audit approach

##### Overview

**Overall group materiality**

- Overall group materiality: R74 million, which represents 1% of consolidated revenue.

**Group audit scope**

- The consolidated financial statements are a consolidation of the Company and nine subsidiaries (directly and indirectly held, and which represent trading entities, dormant entities, an insurance company and a management services company). The Group has six operating subsidiaries in South Africa, Botswana, Lesotho, Eswatini and Namibia.
- All financially significant subsidiaries within the Group were subject to full scope audits. Analytical review procedures were performed over all components that were not subject to full scope audits. We also performed procedures in respect of the consolidation process, in order to gain sufficient evidence over the consolidated financial statements.

**Key audit matters**

- Expected credit losses (ECL) on trade receivables; and
- Impairment assessment of right-of-use assets.

*The examination of controls over the maintenance and integrity of the Group's website is beyond the scope of the audit of the financial statements. Accordingly, we accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.*

# INDEPENDENT AUDITOR’S REPORT CONTINUED

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated and separate financial statements. In particular, we considered where the directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

## Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall group materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Overall group materiality	R74 million
How we determined it	1% of total consolidated revenue.
Rationale for the materiality benchmark applied	<p>We selected total consolidated revenue as the benchmark because, in our view, it most appropriately reflects the activity levels of the Group. It is a benchmark against which the performance of the Group can be consistently measured and thus would be most relevant to users of the consolidated financial statements, given the relatively low and volatile profit margins over the last five years, whilst the other key elements of the consolidated financial statements have remained constant.</p> <p>We chose 1% based on our professional judgement, after consideration of the range of quantitative materiality thresholds that would typically apply when using consolidated revenue to compute materiality.</p>

## How we tailored our group audit scope

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Our scoping assessment included consideration of the financial significance of the Group’s components as well as the sufficiency of work planned to be performed over material consolidated financial statement line items. The Group consists of the Company and its nine directly and indirectly held subsidiaries, which include various types of entities such as trading entities, dormant entities and an insurance company. It operates mainly through its operating subsidiary, Lewis Stores Proprietary Limited, and additionally the Group offers insurance cover to customers through its registered short-term insurer subsidiary, Monarch Insurance Company Limited. The Group operates across five different geographical locations, namely South Africa, Botswana, Lesotho, Eswatini and Namibia.

Full scope audits were performed on the Company and all subsidiaries within the Group that were considered to be financially significant. Analytical review procedures were performed on those subsidiaries that were considered to be financially inconsequential. We also performed procedures in respect of the consolidation process, in order to gain sufficient evidence over the consolidated financial statements.

In establishing the overall approach to the group audit, we determined the extent of the work that needed to be performed by us, as the group engagement team, and other component auditors from other PwC network firms, operating under our instruction, in order to issue our audit opinion on the consolidated financial statements of the Group. Where the work was performed by component auditors, we determined the level of involvement necessary in the audit work at those components to be able to conclude whether sufficient appropriate audit evidence has been obtained as a basis for our opinion on the consolidated financial statements as a whole.

## Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report in respect of the separate financial statements.

# INDEPENDENT AUDITOR’S REPORT CONTINUED

Key Audit Matter	How our audit addressed the key audit matter
<b>Expected credit losses (ECL) on trade receivables</b>	
<i>Refer to note 4 (Trade, other receivables and debtor costs) to the consolidated financial statements for disclosures as it relates to this key audit matter.</i>	Our audit addressed this key audit matter as follows:
As at 31 March 2023, the gross value of trade receivables was R6.1 billion, against which an ECL of R2.2 billion was recognised. The ECL was calculated by applying International Financial Reporting Standards (“IFRS”) 9 – <i>Financial Instruments</i> .	Utilising our actuarial expertise, we tested the calibration of ECL statistical model components as follows:
The Group elected to apply the simplified model in accordance with IFRS 9 to measure the expected credit loss allowance at an amount equal to the lifetime ECL of all trade receivables. Lifetime ECLs are assessed by determining cash flows on a probability weighted basis and discounting these cash flows at the original effective interest rate, that includes initiation fees as they are integral to the determination of the effective interest rate.	<ul style="list-style-type: none"><li>We assessed the appropriateness of the methodology applied by management in their IFRS 9 model documentation, which forms the basis of the ECL calculation, with reference to the requirements of IFRS 9 and noted no matters for further consideration;</li><li>We tested the reasonability of the key assumptions, i.e. effective interest rate and probability weighted cash flows applied in the ECL calculation, through independent recalculation with reference to independent sources of information obtained where applicable. We noted no matters for further consideration; and</li><li>We tested the accuracy of management’s calculation by performing an independent recalculation of the ECL values as at 31 March 2023 and noted no material differences.</li></ul>
In calculating the ECL, the key areas of significant management judgement and estimation applied included the following:	<i>Determination of the write-off point:</i> <p>We accepted management’s write-off point following evaluation of management’s assessment of historical post write-off recoveries performed by them to determine the point at which there was no reasonable expectation of further recovery. Through recalculation of the write-off point for all customers, we tested the application of the Group’s write-off policy using historical data. We excluded post write-off recoveries from expected cash flows for purposes of recalculating the ECL.</p>
<ul style="list-style-type: none"><li>Transition matrices are used to estimate the probability of a sub-account being in each state at each future point in time until the sub-account reaches the age of 60 months. These probabilities are combined with payment percentage assumptions to estimate probability-weighted cash flows. All parameters are derived using the historical behaviour of the portfolio.</li></ul>	<i>Forward-looking information:</i> <p>Making use of our actuarial expertise we performed the following procedures in respect of the forward-looking information included by management in their calculation of ECL:</p> <ul style="list-style-type: none"><li>We evaluated the impact of economic stresses by creating an independent ECL model. We compared the results of our model to management’s ECL model and found no material differences;</li><li>We recalculated an overlay independently and separately for each of three forward-looking economic scenarios and probability-weighted them, with the upside scenario having 5% probability, the downside 70% and the base scenario 25%. We compared the results of our model to management’s and found no material differences.</li></ul>
<i>Determination of the write-off point:</i> <p>Write-offs take place where the customer’s payment behaviour cannot be rehabilitated after all reasonable commercially and economically appropriate collection methods have been utilised and exhausted. The bad debt write-offs are initiated where the customer has not made a qualifying payment in the three months preceding the write-off for the certain categories of customers.</p>	
<i>Forward-looking information:</i> <ul style="list-style-type: none"><li>An economic overlay model has been developed by the Group by performing a regression analysis between key economic variables and the percentage of performing accounts rolling into non-performing states in the following 12 months.</li><li>The Group has identified the following economic variables as those with the highest degree of statistical significance:<ul style="list-style-type: none"><li>Real durable consumption, adjusted to account for GDP growth</li><li>Year-on-Year change in debt/disposable income</li></ul></li></ul>	
The Group has considered the risk resulting from disruptions to the local and global economic environment and taken this into account in assigning probability weightings to the economic overlay.	
We considered the ECL on trade receivables to be a matter of most significance to our current year audit of the consolidated financial statements due to the following:	
<ul style="list-style-type: none"><li>the degree of subjective judgement and estimation applied by management in determining the ECL; and</li><li>the magnitude of the ECL recognised in the consolidated financial statements.</li></ul>	

INDEPENDENT AUDITOR’S REPORT CONTINUED

Key Audit Matter	How our audit addressed the key audit matter
<p><b>Impairment assessment of right-of-use assets</b></p> <p><i>Refer to note 9 (Leases) to the consolidated financial statements for disclosures as it relates to this key audit matter.</i></p> <p>The Group’s total assets include right-of-use (ROU) assets in respect of the properties leased by the Group. The Group recognises these leases as lease liabilities with a corresponding right-of-use (ROU) asset at the date of commencement of the lease agreement in terms of IFRS 16 ‘Leases’.</p> <p>As at 31 March 2023, the Group recognised right-of-use assets with a carrying value of R760 million after a net impairment charge of R22.9 million.</p> <p>The Group tests its ROU assets for impairment whenever circumstances indicate that the carrying amount may exceed its recoverable amount. Refer to note 9 to the consolidated financial statements where the Group has disclosed the circumstances that gave rise to it assessing impairment of its CGUs. For purposes of impairment testing, each store was assessed as an individual Cash Generating Unit (CGU).</p> <p>The recoverable amount of each respective CGU was determined as the higher of the CGUs fair value less costs to sell and value-in-use (VIU). An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount.</p> <p>The VIU of each CGU was calculated using a discounted cash flow model whereby expected cash flows for individual stores are determined in accordance with the principles contained within International Accounting Standard (“IAS”) 36 – <i>Impairment of Assets</i> (“IAS 36”). The assumptions applied by management in determining the VIU are disclosed in note 9 to the consolidated financial statements.</p> <p>We considered the impairment assessment of ROU assets to be of most significance to our current year audit of the consolidated financial statements due to the degree of judgement applied by management in determining the recoverable amounts of the CGUs.</p>	<p><i>We performed the following procedures on the impairment assessment of ROU assets:</i></p> <ul style="list-style-type: none"><li>• We assessed the reasonableness of the CGUs identified by management by comparing it to the principles contained in IAS 36, to establish that each individual store has been appropriately identified as a CGU. No material exceptions were noted.</li><li>• With the assistance of our valuation expertise we assessed the reasonableness of the discount rate used in the VIU calculations. We compared our results to that of management, noting no material differences.</li><li>• We assessed the reasonableness of management’s cash flow forecasts by agreeing the base cash flows to actual results and assessing the reasonableness of growth rates applied over the forecast period by benchmarking against historical data. We found the cash flow forecasts and the underlying assumptions to be reasonable.</li><li>• We assessed the reasonableness of the final cash collections with reference to historical performance of the Group. Based on our procedures performed, we found management’s assumptions to be reasonable.</li><li>• We tested the reasonability of management’s impairment calculation of the ROU assets by recalculating the VIU and found the calculation to be reasonable.</li></ul>

INDEPENDENT AUDITOR’S REPORT CONTINUED

Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled “Lewis Group Limited Annual Financial Statements for the year ended 31 March 2023”, which includes the Directors’ Report, the Audit Committee’s Report and the Company Secretary’s Certificate as required by the Companies Act of South Africa, which we obtained prior to the date of this auditor’s report, and the document titled “Lewis Group Limited Integrated Annual Report for the year ended 31 March 2023”, which is expected to be made available to us after that date. The other information does not include the consolidated or the separate financial statements and our auditor’s report thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the consolidated and separate financial statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group and the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and/or the Company or to cease operations, or have no realistic alternative but to do so.

Auditor’s responsibilities for the audit of the consolidated and separate financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s and the Company’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors’ use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group’s and the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group and/or Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR’S REPORT CONTINUED

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In terms of the IRBA Rule published in Government Gazette Number 39475 dated 4 December 2015, we report that PricewaterhouseCoopers Inc. has been the auditor of Lewis Group Limited for 32 years.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 31 March 2023

REPORTING ENTITY

Lewis Group Limited is a company incorporated and domiciled in South Africa. The address of the company's registered offices is stated on page 1.

1.1 BASIS OF PREPARATION

The financial statements are prepared in accordance with IFRS, the IFRS Interpretations Committee interpretations, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, Financial Pronouncements as issued by the Financial Reporting Standards Council and the requirements of the Companies Act. The financial statements are prepared under the historical cost convention, and modified by the revaluation of certain financial instruments to fair value. The financial statements are prepared on a going concern basis.

The accounting policies applied are consistent with those applied in the previous consolidated annual financial statements.

There were no new or revised standards or interpretations that had an impact on the results and financial position of the Group in the current year.

The Group has a trading cycle of 1 April to 31 March aligned with its statutory year-end. This is consistent with the previous financial year.

The Group and company discloses its significant accounting policies, including its measurement basis or bases, as part of its disclosures in each note in order to assist the users of these statements in understanding how transactions, events and conditions are reflected in the primary financial statements. The Group presents its notes on the following basis:

- Incorporate all related disclosures, accounting policies, significant judgements, risk management disclosure and other information relating to a particular balance sheet and/or income statement item together to provide a complete overall picture of such items.
- The notes are, as far as possible, ordered in terms of materiality and significance to the business. (Refer to navigation on contents page).

1.2 SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

Preparation of financial statements in conformity with IFRS requires the use of certain accounting estimates. It also requires management to exercise judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed as significant judgements.

The following significant judgements have been identified:

	Note reference
Impairment of receivables	4.1
Debtor costs	4.2
Insurance liabilities	5.3
Retail revenue	6.2
Provision for inventory obsolescence	7
Leases	9
Useful lives and residual values of fixed assets	10
Goodwill	12
Payments in advance	17
Share-based payments	18.3
Retirement benefits	18.5
Normal and deferred taxation	19

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

2. RISK MANAGEMENT

The Board is responsible for risk management and views it as an integral part of providing a responsible return on shareholders' equity.

To assist the Board, the Group is managed through a system of internal controls functioning throughout the entity. The Board delegated risk matters to a group risk committee comprising five independent non-executive directors, one non-executive director and two executive directors which operates in compliance with a formal charter. The Chief risk officer oversees the risk function. The committee assists the Board by, *inter alia*:

- reviewing the risk management policy and plan annually;
- making recommendations on risk tolerance and appetite;
- evaluating and agreeing the nature of and extent of the risks that the company should be willing to take in pursuit of its strategic objectives;
- reviewing the risk register of strategic and operational risks annually;
- monitoring implementation of the risk management policy and plan; and
- exercising ongoing oversight of risk management.

Risk management disclosures are categorised as follows:

Credit risk

The risk that the counterparty to the financial instruments that Lewis Group holds will cause loss to Lewis Group as a result of the counterparty failing to discharge its obligations.

Price risk

The risk that the fair value of future cash flows of a financial instrument that Lewis Group holds will fluctuate because of changes in market prices, other than due to the interest rate risk or currency risk.

Interest rate risk

The risk that the fair value of future cash flows of a financial instrument (whether an asset or liability) will fluctuate because of changes in market interest rates.

Currency risk

The risk that the fair value of future cash flows of a financial instrument (whether an asset or liability) will fluctuate because of changes in the foreign exchange rates.

Liquidity risk

The risk that Lewis Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by cash or another financial asset.

Insurance risk

The risk that results from fluctuations in the timing, frequency and severity of insured events. It includes the risk that premiums may be insufficient to compensate for future claims and that provisions for reported and unreported claims are inadequate.

Actuarial risk

The risk that defined benefit liabilities expose the Group to the risk of these promised benefits exceeding the accumulated assets set aside to meet these obligations which will result in additional funding from the Group.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

2.

RISK MANAGEMENT continued

The risk disclosures per risk category have been set out as follows:

	Note reference
<b>Credit risk</b>	
Trade receivables	4.1
Insurance investments	5.1
Cash	14.1
<b>Price risk</b>	
Insurance investments	5.1
<b>Interest rate risk</b>

The Group holds the following financial instruments:

	Note reference
Trade and other receivables	4.1
Insurance investments	5.1
Lease liabilities	9.1
Cash-on-hand and deposits	14.1
Short-term interest-bearing borrowings	14.1
Trade payables	16

Accounting policies

- (i)

**Initial recognition of financial assets**  
On initial recognition, financial instruments are measured at fair value. Purchases and sales of financial assets are recognised on the trade date, being the date that the Group commits to the transaction.  
  
Subsequently, financial instruments are measured as follows:
  - Amortised cost.
  - Fair value through other comprehensive income.
  - Fair value through profit or loss or designated as at fair value through profit or loss.
- (ii)

**Business model assessment**  
For debt instruments, IFRS 9 requires that a business model assessment is carried out which reflects how the Group manages the assets in order to generate cash flows. The assessment is at a portfolio level which is the level at which the portfolio is managed. Factors considered in determining the business model for a group of assets include past experience on how cash flows were collected, how the assets' performance is evaluated and reported, risks that affect the assets' performance and how these risks are assessed and managed and the reasons, frequency, volume and timing of sales in prior periods.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

3.

FINANCIAL INSTRUMENTS continued

- (ii)

**Business model assessment** continued  
Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective such as trade and other receivables, insurance assets and deposits. Debt instruments have been classified into the following categories:
  - Amortised cost.
  - Fair value through other comprehensive income ("FVOCI").
  - Fair value through profit and loss ("FVTPL").  
The Group reclassifies debt instruments when and only when its business model for those financial assets changes. Such changes are expected to be very infrequent.  
  
The Group's business models for managing debt instruments and the contractual cash flow characteristics of the debt instruments determine the following categories:
  - **Amortised cost:**  
Financial assets within a business model whose objective is solely to hold assets to collect contractual cash flows and the contractual terms of these assets are solely payments of principal and interest.
  - **FVOCI (Hold to collect and sell):**  
Financial assets held within a business model whose objective is both to hold these assets to collect contractual cash flows and to sell these assets and that the contractual terms of financial assets are solely payments of principal and interest.  
  
Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains or losses on the instrument's amortised cost which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the income statement. Interest income from these financial assets is included in interest received and calculated using the effective interest rate method.
  - **FVTPL (Hold to sell/manage on a fair value basis):**  
Financial assets are held within a business model where the objective is to sell and manage these assets on a fair value basis. In addition, financial assets can also be included in this category if:
    - the use of this classification removes or significantly reduces an accounting mismatch; or
    - financial assets which do not meet the SPPI criteria (see below).
- (iii)

**Solely payment of principal and interest ("SPPI")**  
Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the assets' cash flows represent solely payments of principal and interest (the SPPI test). In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement. Where the contractual terms introduce volatility or exposure to risks that are inconsistent with a basic lending arrangement, the financial asset is classified and measured at FVTPL.
- (iv)

**Impairment of financial assets**  
**Financial assets other than trade receivables**  
The expected credit loss ("ECL") model applies to financial assets classified at amortised cost and/or FVOCI. ECL is a probability-weighted estimate of losses. A credit loss is the difference between the cash flows that are due to the entity in accordance with the contract and the cash flows it expects to receive, discounted at the original effective interest rate implicit in the financial asset.  
  
The general model for impairment is recognised as follows:
  - **Stage 1:**  
ECL is recognised on initial recognition and measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months.
  - **Stage 2:**  
At each reporting date the Group assesses whether there has been a significant increase in credit risks ("SICR") since initial recognition. Where evidence exists that there has been a SICR, the ECL is based on expected credit losses over the lifetime of the asset.

**Lewis Group Limited:****CONSOLIDATED FINANCIAL STATEMENTS** CONTINUED

for the year ended 31 March 2023

**3. FINANCIAL INSTRUMENTS** continued

## Accounting policies continued

**(iv) Impairment of financial assets** continued**Financial assets other than trade receivables** continued• **Stage 3:**

Financial assets become credit impaired as a result of a loss event that has occurred after initial recognition. ECL is based on estimated credit losses over the lifetime of the asset. For these credit impaired assets, the interest or return on these assets are calculated on the amortised cost. Amortised cost is defined as the gross carrying value on initial recognition (adjusted for any modifications) less the impairment provision.

The impairment gains or losses are presented as follows:

- For amortised cost assets, through the income statement.
- For debt instruments that are financial assets classified as FVOCI, through the income statement.

**Trade receivables**

The Group's trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. These receivables contain a significant financing component with terms of business varying from 6 to 36 months, with a significant portion conducted on 36 months.

In accordance with paragraph 5.5.15(a)(ii) of IFRS 9, the Group has elected to apply the simplified model and measures the impairment allowance at an amount equal to lifetime expected credit losses. This policy has been applied to all trade receivables.

The ECL is a probability-weighted estimate and represents the difference between the cash flow that is due to the entity in accordance with the contract and the cash flows the entity expects to receive, discounted at the original effective interest rate (contractual interest rate and initiation fee included in the customer contract).

Where trade receivables have become credit impaired as a result of loss events that have occurred after initial recognition, those receivables are classified as stage 3. The effective interest recognised on these assets is calculated on the amortised cost being defined as gross carrying value on initial recognition (adjusted for any modification) less the impairment provision.

**(v) Current and non-current financial assets and financial liabilities**

Current assets and liabilities have maturity terms of less than 12 months, except for instalment sale receivables and money market floating rate notes. Instalment sale receivables, which are included in trade and other receivables, have maturity terms of between 6 to 36 months but are classified as current as they form part of the normal operating cycle. Money market floating rate notes are highly liquid and utilised to fund Monarch's working capital requirements and are therefore classified as current assets.

**(vi) Set off**

Financial assets and liabilities are offset and the net amount reported in the balance sheet only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the financial asset and settle the financial liability simultaneously.

**(vii) Derivative instruments**

Derivative instruments are utilised to hedge exposure to foreign currency fluctuations. Although the derivatives have not been designated in a hedge relationship, they act as an economic hedge and will substantially offset the underlying transactions when they occur. Derivatives are recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. These derivative instruments have been classified as fair value through profit and loss and changes in the fair value are recognised in the income statement.

**(viii) Derecognition**

Financial assets are only derecognised when the rights to receive cash flows from the investments have expired or the Group has transferred the contractual rights to receive the cash flows of the financial asset.

Amounts due from trade receivables after one year are reflected as current, as they form part of the normal operating cycle. The credit terms of trade receivables range from 6 to 36 months.

Other receivables consist of prepayments, VAT, foreign reinsurance receivables, enterprise development loans and investment in insurance cell captive (refer to note 5).

Accounting policies

Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. They are recognised initially at fair value and are subsequently measured at amortised cost using the effective interest rate, less a provision for impairment. Trade receivables are classified as financial instruments in terms of IFRS.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

4. TRADE, OTHER RECEIVABLES AND DEBTOR COSTS continued

4.1 Trade, insurance and other receivables continued

Significant accounting estimates and judgements

- (i) **Business model**  
Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. These receivables contain a significant financing component with terms of business varying from 6 to 36 months, and a significant portion of the business being conducted on 36 months.  
  
Trade receivables are held to collect contractual cash flows and the contractual terms of the trade receivables are solely payments of principal and interest. Accordingly, the assessment of the business model is that of holding to collect and, therefore, trade receivables are accounted for on an amortised cost basis.
- (ii) **Modifications**  
The ECL is calculated with reference to the original contract with the customer. No modifications are made to the contract or the contractual cash flows as contemplated by IFRS 9.
- (iii) **Impairment modelling**  
In accordance with paragraph 5.5.15(a)(ii) of IFRS 9, the Group has elected to apply the simplified model and measures the impairment allowance at an amount equal to lifetime expected credit losses. This policy has been applied to all trade receivables. Lifetime expected credit losses are assessed by determining cash flows on a probability-weighted basis and discounting these at the effective interest rate including initiation fees. The discount rate used was 27.0% (2022: 26.6%). Cash flows are forecast up to month 60 of the account.  
  
The probability-weighted cash flows are calculated using the following:
  - Transition matrix and conditional probabilities.
  - Payment performance for each payment state.  
The transition matrix and conditional probabilities are calculated using the trade receivables population payment behaviour for each payment state and has been developed using the Group's customer payment history over a five-year period. The transition matrices have been developed for each of the countries which predicts the population's payment behaviour and probability of the account being in a particular payment state and transitioning into future payment states. The key states in the transitional matrix are the following:
  - Customers' lifetime payment rating which measures the customers actual payments received over the lifetime of the account relative to the contractual instalments due.
  - Age of the account.
  - Term of the contract.  
For each term, lifetime payment rating and age, the transitional matrix predicts the probability of an account transitioning into future lifetime payment ratings for the remaining months on book.  
  
The payment performance for each payment state is calculated using the actual payment history for each payment rating over the last 12 months.  
  
**Forward-looking information**  
IFRS 9 requires that the ECL impairment provision considers potential future changes in the economic environment. To achieve this, an economic overlay model has been developed by performing a regression analysis between key economic variables and the percentage of performing accounts rolling into non-performing states in the following 12 months. This analysis is done on an annual basis to identify the relevant economic variables and assess the degree of correlation with the non-performing category. Recent observations in the analysis were upweighted to more accurately reflect the enhanced collection strategies as evidenced by the improvement in satisfactory paid customers from 74.4% in 2021 to 80.4% in the current year with the value of the satisfactory paid increasing by 26.9% over the corresponding period.  
  
The assessment for 2023 has identified, consistent with the 2022 year-end, the following economic variables as those with the highest degree of statistical significance:
  - Real durable consumption, adjusted to account for GDP growth.
  - Year-on-year change in debt/disposable income.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

4. TRADE, OTHER RECEIVABLES AND DEBTOR COSTS continued

4.1 Trade, insurance and other receivables continued

Significant accounting estimates and judgements continued

- Forward-looking information** continued  
Base, upside and downside scenarios using the economic variables above are determined and a weighted average scenario prepared. This is compared to the base position and an appropriate adjustment is made to the whole trade receivables book. The three scenarios project the future impact of the economic variables on the impairment provision.  
  
Global and local macroeconomic factors are likely to put additional strain on consumer disposable income during the coming year and consequently management has assigned a probability of 70% to the downside scenario, 25% to the base scenario and 5% to the upside scenario for the 12-month forecast. The resultant impact of R168.9 million (2022: R270.4 million) was included in the Group's ECL impairment provision.  
  
Management's areas of judgement include the probabilities of these scenarios occurring, the severity of the scenarios and the potential impact it might have on payment performance. A sensitivity analysis has been performed and the impact is illustrated below:

Probability-weighted impact of all three scenarios	2023		2022	
	Rm	% change	Rm	% change
	168.9		270.4	
100% downside scenario	193.4	14.5	302.1	11.7
100% base scenario	124.5	(26.3)	211.6	(21.7)
100% upside scenario	48.4	(71.3)	120.3	(55.5)
- (iv) **Credit impaired (Stage 3)**  
The criteria for credit impaired accounts (i.e. when the account moves to stage 3 as a result of loss events that have occurred after initial recognition) are as follows:
  - Non-performing accounts (as defined on the following page).
  - *In duplum* accounts (the National Credit Act section providing that all charges cease to accrue once the sum of the charges equals the amount of capital outstanding at the time).
  - Accounts in debt counselling (as governed by the National Credit Act).
  - As a backstop, accounts not included in the above categories, where no payment has been received over the last three consecutive months. This category was specifically created for IFRS 9 purposes.  
A credit impaired account will cure when the customer does not meet the criteria for being a credit impaired account.  
  
Curing occurs in the following instances:
  - Non-performing accounts: Accounts in this category will only cure when their lifetime payment rating improves to the extent that the account qualifies to move into a 'Slow payers' or 'Satisfactory paid' category. Generally, this will require a significant improvement in the customer's payment behaviour.
  - *In duplum* accounts: Accounts in this category will cure when they no longer meet the requirements of the National Credit Act for being defined as an *in duplum* account.
  - Accounts in debt counselling: Accounts in this category will cure when the customer is no longer in debt counselling in terms of the requirements of the National Credit Act.
  - For accounts where no payment has been received in the last three consecutive months, it will cure once in receipt of a payment. This category has a high probability of curing.  
With regard to credit impaired accounts, interest income is recognised by applying the effective interest rate to the net carrying value, i.e. gross carrying value less impairment provision, resulting in lower interest revenue.
- (v) **Unpaid insurance**  
Insurance receivables are recognised and measured in terms of IFRS 4 *Insurance Contracts*.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

4. TRADE, OTHER RECEIVABLES AND DEBTOR COSTS continued

4.1 Trade, insurance and other receivables continued

Credit risk of trade receivables

Credit risk is the risk of suffering financial loss, should any of the Group's customers and counterparties fail to fulfil their contractual obligations with the Group. The main credit risk faced is that customers will not meet their payment obligations in terms of the sale agreements concluded.

Lewis has a large, diverse and widespread customer base. Therefore, the Group does not consider there to be any significant concentration of credit risk.

Credit granting

The Group has developed advanced credit granting systems to properly assess the credit worthiness of customers. The credit underwriting process flows through the following stages:

- **Credit scoring:** This involves the gathering of appropriate information from the client, use of credit bureaus and third parties such as employers. These input variables are run through the various credit scorecards. Lewis deals with its new customers and existing customers differently when credit scoring takes place.

The process is as follows:

- For new customers, application risk scorecards predict the risk with the emphasis for such an evaluation on information from credit bureaus and third-party information.
- For existing customers, behavioural scorecards have been developed to assess the risk through predictive behaviour with the emphasis on the customer's payment record with Lewis, bureau and other information being considered.

- **Assessing client affordability:** This process involves collecting information regarding the customer's income levels, expenses and current debt obligations. Lewis has its own priority expense model based on surveys conducted with customers in addition to the National Credit Regulator's expense table.

- **Determining the credit limit for the customer:** The customer's risk score determined by the scorecard together with the affordability assessment and outstanding obligations are used to calculate a credit limit within the customer's affordability level.

The credit granting systems enable the Group to determine its appetite for risk. In determining the acceptable level of risk, the potential loss is weighed up against the revenue potential using the predictive behavioural models inherent in the credit granting system. The Group continuously monitors any variances from the level of risk that has been adopted.

The Group manages its risk effectively by assessing the customer's ability to service the proposed monthly instalment.

Payment ratings

The customer's payment profile is managed by using payment ratings. Payment ratings are determined on an individual customer level and aggregated over all the customer's sub-accounts. Payment ratings measure the customer's actual payments received over the lifetime of the account relative to the instalments due in terms of the contract.

There are 13 payment ratings with customers being allocated to one of these 13 payment ratings in accordance with their payment behaviour. For the purpose of managing the business, the 13 payment ratings are summarised into three main groupings, namely:

- **Satisfactory paid**

These represent customers with a payment rating of between 9 and 13, with the lowest rated customers having paid an average of approximately 70% over the contract period (with no single customer paying less than 65.4%).

- **Slow payers**

These represent customers with a payment rating of 7 and 8, with the lowest rated customers having paid an average of approximately 55% of amounts due over the contract period (with no single customer paying less than 50.0%).

- **Non-performing accounts**

These represent customers not classified as Satisfactory paid or Slow payers with a payment rating of 6 and lower.

These payment ratings are used to categorise and report on customers, to re-sell to satisfactory paid customers and to follow up the slow paying and non-performing customers.

Lewis Group Limited:

for the year ended 31 March 2023

4. TRADE, OTHER RECEIVABLES AND DEBTOR COSTS continued

4.1 Trade, insurance and other receivables continued

Impairment provision

In accordance with IFRS 9, the Group has elected to measure the impairment allowance equal to the lifetime ECL. The lifetime ECL is calculated by determining cash flows on a probability-weighted basis and discounting these at the effective interest rate in the contract, including initiation fees. The discounted cash flow is compared to the balance owing at point of assessment to determine the ECL.

The probability-weighted cash flows are calculated using the debtor book population's payment behaviour in combination with a transition matrix. The transition matrix and payment performance for each payment state has been developed utilising customer payment history. The transition matrix predicts the population's payment behaviour and probability of the account being in a particular payment state and transitioning into future payment states. The key states in the transitional matrix are the customer's lifetime payment rating, time on book and contractual term. For modelling purposes, cash flows are forecast up to month 60 of the account.

The impairment provision applicable to each payment rating and the trending thereof, is evaluated with collection rates and customer payment data produced by the credit risk information systems.

The key indicators that are reviewed include, *inter alia*, the following:

- **Number of satisfactorily paid customers.** The key operational objective is to have as many satisfactory paid customers as possible as it is the Group's expectation that these customers will settle their accounts, albeit that certain categories of satisfactory paid customers may settle past their contractual term. Satisfactory paid customers are the source of future repeat business which is one of the core strengths of the business model.
- **The level of impairment provision applicable to each payment rating and the trend thereof.** The impairment calculation is performed on a monthly basis taking into account the payment behaviour of the debtors book having regard to the customer's lifetime payment rating, time on book and contractual term.

Contractual arrears

The key aspect of the arrear calculation is Lewis' policy not to reschedule arrears nor to amend the terms of the original contract. In other words, the contractual arrears calculated is the actual arrears in terms of the originally signed agreement.

From the onset of the agreement, contractual arrears are calculated by comparing payments made life to date with the originally calculated instalments due life to date, causing a customer who is paying less than the required contracted instalment to immediately fall into arrears. Once the customer exceeds the term of the agreement by paying less than the required contracted instalments, the full balance owing will be in arrears. The Group does not consider arrears the leading indicator, but rather payment ratings for the reasons mentioned above.

Combined impairment and contractual arrears table

The table reflects the following:

- The main groupings of payment ratings describing payment behaviour.
- For each of the main groupings of payment ratings, the following is disclosed:
  - Number of customers.
  - Gross carrying value.
  - Impairment provision allocated to each grouping.
  - Contractual arrears for each grouping have been categorised by number of instalments in arrears.

The table referred to above is set out on the following page.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

4. TRADE, OTHER RECEIVABLES AND DEBTOR COSTS continued

4.1 Trade, insurance and other receivables continued

**Interest rate risk**

Interest rates charged to customers are fixed at the date the contract is entered into. Consequently, there is no cash flow interest rate risk associated with these contracts during the term of the contract.

The weighted average contractual interest rate on trade receivables is 21.6% (2022: 20.8%).

**Fair value**

In terms of paragraph 29(a) of IFRS 7, the carrying amounts reported in the balance sheet approximate fair value.

4.2 Debtor costs

	2023 Rm	2022 Rm
Bad debts	<b>919.2</b>	902.0
Bad debts before adjustment for interest on credit impaired accounts	<b>1 011.0</b>	1 021.3
Adjustment for interest on credit impaired accounts	<b>(91.8)</b>	(119.3)
Bad debt recoveries	<b>(80.5)</b>	(76.3)
Movement in debtors impairment provision	<b>(87.0)</b>	(123.3)
Closing balance	<b>2 213.4</b>	2 300.4
Opening balance	<b>(2 300.4)</b>	(2 423.7)
<b>Total debtor costs</b>	<b>751.7</b>	702.4
Debtor costs as a percentage of debtors at gross carrying value	<b>(%) 12.3</b>	12.3

“Bad debts before adjustment for interest on credit impaired accounts” is the gross carrying amounts of the trade receivables written off. For credit impaired accounts, interest income is recognised by applying the effective interest rate to the amortised cost (gross carrying value less impairment provision), resulting in lower bad debts.

**Accounting policy**

**Debtor costs**

The Group writes off trade receivables when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery.

Impairment losses on trade receivables are included in debtor costs. Subsequent recoveries of amounts previously written off are credited against the same line item.

**Significant accounting estimates and judgements**

Bad debt write-offs take place at the end of each reporting period (i.e. September and March). Bad debt write-offs take place where the customer’s payment behaviour cannot be rehabilitated after all reasonable commercially and economically appropriate collection methods have been utilised and exhausted. The bad debt write-offs are initiated where the customer has not made a qualifying payment in the three months preceding the write-off for the following categories:

- Customers significantly in arrears.
- Non-performing customers in terms of the business’ credit management practices.
- Customers with out-of-term accounts.

Strong collection drives precede the write-offs and there is no reasonable prospect of significant recoveries once the customer account has been written off. Where receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due.

A register of investments is available for inspection at the company's registered office.

**Accounting policy**

Insurance investments are those investments made by the Group's insurance company to meet statutory solvency requirements and comprise fixed income securities and money market instruments. Insurance investments is classified as financial instruments in terms of IFRS.

**Significant accounting estimates and judgements**

The Group holds the following investments:

- Fixed income securities
- Money market floating rate notes

From a business model assessment, these assets are held to collect the contractual cash flows and to sell the assets. The fixed income securities and money market floating rate notes meet the SPPI test. Fixed income securities are accounted for at FVOCI and the money market floating rate notes are accounted for at FVTPL.

Fixed income securities are risk-free government bonds. Money market floating rate notes are invested with credit-worthy financial institutions. Both long term and short term foreign credit ratings are monitored to assess credit-worthiness. An ECL assessment was performed and no ECL has been provided as it was found to be immaterial due to the probability of default being extremely low.

Stage 1 with no movement between stages. No amount for 12-month expected credit loss has been recognised as the amount is immaterial.

**Credit risk**

Fixed income securities are risk-free government bonds.

The following table provides information regarding the credit risk exposure of the government bonds:

Name of investment	2023 Credit rating	2022 Credit rating	Maturity profile	2023 Rm	2022 Rm
RSA 7.00% 280231	Ba2	Ba2	7 to 12 years	104.5	105.3

**5. INSURANCE** continued**5.1 Insurance investments continued****Credit risk continued**

The money market floating rate notes are invested with credit-worthy financial institutions.

The Moody's credit rating and maximum exposure to credit risk for money market floating rate notes per institution is detailed in the table below:

Financial institutions	2023		2022		2023 Rm	2022 Rm
	Long-term	Short-term	Long-term	Short-term		
FirstRand Bank	Ba2	NP	Ba2	NP	17.2	23.2
Absa	Ba2	NP	Ba2	NP	28.3	32.3
Nedbank	Ba2	NP	Ba2	NP	28.3	32.3
Standard Bank	Ba2	NP	Ba2	NP	28.4	30.2
Investec	Ba2	NP	Ba2	NP	30.4	32.2
Other					6.3	6.5
<b>Total</b>					<b>138.9</b>	156.7

The long-term and short-term ratings above are foreign ratings. Foreign ratings are heavily influenced by the country's overall credit rating.

**Price risk**

There is exposure to securities price risk because of investments held by Monarch Insurance Company Limited ("Monarch"). Fixed income securities are classified as FVOCI and the money market floating rate notes are classified as FVTPL.

Monarch holds investments in order to meet the insurance liabilities and solvency margins required by the Insurance Act, No. 18 of 2017. The investments are managed by Sanlam Investment Management (Pty) Ltd ("Sanlam") on Monarch's behalf.

The overall management objectives of the Monarch investment portfolio are:

- preservation of capital over the long-term;
- managing market risk over the short- to medium-term; and
- to ensure the portfolio is adequately diversified.

Monarch's Board controls the investment strategy adopted by Sanlam. At each of the Board's quarterly meetings, a comprehensive report from Sanlam is presented and discussed. Particular emphasis is placed on:

- current market conditions and future expectations;
- asset allocations considering the above;
- returns under each asset category;
- detailed reviews of the positioning of the bond portfolio; and
- recommendations of the asset manager going forward.

The Monarch Board considers the recommendations of the asset managers. The investment strategy is then formulated for the following quarter and authority given to the Monarch Chief executive officer to implement the strategy. The performance of this portfolio is presented to the Group's audit committee on a quarterly basis.

The market risk of the fixed security portfolio is monitored through the modified duration of the portfolio, a measure which approximates the movement in the fair value of such securities relative to interest rate movements. The modified duration of the fixed income portfolio at the respective year-ends and the JSE All Bond Index are as follows:

	2023	2022
Modified duration of Monarch's fixed income portfolio	6.9	7.5
Modified duration of the JSE All Bond Index	6.0	6.6

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

5. INSURANCE continued

5.1 Insurance investments continued

	2023 Rm	2022 Rm
<b>Interest rate risk</b>		
Interest rate volatility arises from insurance investments in two ways: – Money market investments in the form of floating rate notes. – Fixed income securities in the form of fixed coupon rates.		
The interest rate prevailing on money market deposits at year-end was 8.5% (2022: 5.2%). Assuming the current levels of money market deposits throughout the year, the impact of changes to the coupon rate on net profit after tax is as follows:		
+50 basis points	0.5	0.5
-50 basis points	(0.5)	(0.5)
The coupon rate on fixed income securities prevailing at year-end was 6.6% (2022: 6.6%). Assuming no change in current level of fixed income securities, the impact of changes in the coupon rate on net profit after tax is as follows:		
+50 basis points	1.3	1.3
-50 basis points	(1.3)	(1.3)

Liquidity risk

Monarch manages liquidity requirements by matching the maturity of the assets invested to the corresponding insurance liabilities and the required solvency margin. The insurance liabilities and the required solvency margin are covered by fixed income securities and money market deposits. The maturity analysis of insurance investments are presented in note 3 and the maturity analysis of insurance liabilities are presented in note 5.4.

Fair value hierarchy

The following table presents the assets recognised and subsequently measured at fair value:

	Level 2 Rm	Total Rm
<b>2023</b>		
Insurance investments:		
Fixed income securities – FVOCI	257.3	257.3
Money market floating rate notes – FVTPL	138.9	138.9
	396.2	396.2
<b>2022</b>		
Insurance investments:		
Fixed income securities – FVOCI	266.1	266.1
Money market floating rate notes – FVTPL	156.7	156.7
	422.8	422.8

A description of the categorisation of the valuation techniques used to value the assets at fair value is set out below:

Level 1:

Financial instruments valued with reference to quoted prices in active markets where the quoted price is readily available and the price represents actual and recurring market transactions on an arm's length basis. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an ongoing basis.

Level 2:

Financial instruments valued using inputs other than quoted prices as described for Level 1, but which are observable for the asset, either directly or indirectly, such as:

- quoted prices for similar assets in an active market;
- quoted prices for identical or similar assets in inactive markets;
- valuation model using observable inputs; or
- valuation model using inputs derived from/corroborated by observable market data.

Level 3:

Financial instruments valued using inputs that are not based on observable market data.

Insurance investments are valued with reference to observable market data on the JSE and are categorised under Level 2.

Lewis Group Limited:

for the year ended 31 March 2023

5. INSURANCE continued

5.2 Investment income

	2023 Rm	2022 Rm
Interest – insurance business	33.5	34.6

Accounting policy

Investment income is recognised as follows:

- Interest on investments is recognised on a time proportion basis taking into account the effective interest rate method on the assets.
- The Group's fixed income securities debt investments are measured at FVOCI. For these investments, changes in fair value are accumulated within the FVOCI reserve within equity. The accumulated changes in fair value are transferred to profit or loss when the investment is derecognised or impaired. The Group's money market floating rate notes are measured at FVTPL.

5.3 Insurance liabilities

	2023 Rm	2022 Rm
Unearned premiums	42.5	35.2
Opening balance	35.2	33.5
Released to the income statement	7.3	1.7
Outstanding claims and IBNR	70.3	67.0

<b>Total insurance liabilities</b>	<b>112.8</b>	<b>102.2</b>

<sup>(1)</sup> Amount charged in the income statement has been included in other operating costs.

Accounting policies

Classification

Insurance contracts are those contracts that transfer significant risk. The Group defines significant insurance risk as the possibility of having to pay benefits on the occurrence of an insured event in terms of the cover given to the insured.

Insurance contracts entered into by the Group's insurer under which the contract holder is another insurer (inwards re-insurance) are included with insurance contracts.

Provision for unearned premiums

The provision for unearned premiums represents that part of the current year's premiums relating to risk periods that extend to the subsequent years. The unearned premiums are calculated on a straight-line basis over the period of the contract.

Outstanding claims

Provision is made for the estimated final cost of all claims notified but not settled at the accounting date and claims arising from insurance contingencies that occurred before the close of the accounting period, but which had not been reported by that date. Claims and expenses are charged to income as incurred based on the estimated liability for compensation owed to insurance policyholders. The Group's own assessors individually assess claims. Outstanding claims provisions are not discounted.

A liability is also recognised for claim events that have occurred but have not yet been reported ("IBNR"). The liability is measured using appropriate statistical techniques with historical data.

Lewis Group Limited:  
CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

5. INSURANCE continued

5.3 Insurance liabilities continued

Significant accounting estimates and judgements

In estimating the provision for claims reported but not yet paid, the notified claims at balance sheet date are reviewed and predetermined formulae based on experience are applied.

The IBNR reserve is calculated for each class of business at year-end by projecting ultimate claims for each loss quarter using:

- the Chain-Ladder method;
- Bornhuetter-Ferguson method; or
- the Loss Ratio method.

The IBNR is calculated from the projected ultimate claims per origin quarter, after deducting paid claims to date and the provision for outstanding claims for that origin quarter.

Below is the sensitivity analysis of the net profit after tax should the IBNR increase or decrease by 10%:

	2023 Rm	2022 Rm
IBNR increases by 10%	(4.8)	(4.0)
IBNR decreases by 10%	4.8	4.0

5.4 Maturity analysis

	0 to 12 months Rm	1 to 2 years Rm	3 to 5 years Rm	>5 years Rm	Total Rm
2023					
Insurance liabilities	(88.7)	(24.1)	–	–	(112.8)
2022					
Insurance liabilities	(82.8)	(19.4)	–	–	(102.2)

Refer to note 3 for the maturity analysis of insurance investments.

Insurance risk

The risks covered under insurance contracts entered into with customers by the Group's insurer, Monarch, and external insurer's in neighbouring foreign countries are as follows:

- Replacement of customer's goods or settlement of balances in the event of damage or theft of goods. Where the goods are replaced, the cost of the claim is determined with reference to the cost of the goods acquired.
- Settlement of customer's outstanding balance in the event of death or permanent disability.
- Settlement of customer's outstanding balance or up to 12 months' instalments due for temporary disability and loss of income.

As Monarch is part of the Group, the underwriting of the above insurance risks forms part of the credit assessment made prior to entering an instalment sale or loan with the customer for the purchase of goods.

The risk under the insurance contract is the possibility that the insured events as detailed above occur and the uncertainty of the amount of the resulting claim. By the very nature of the insurance contract, this risk is random and therefore unpredictable.

A prominent risk that the Group faces is that the actual claims exceed the amount of the insurance claims provisions. This could occur because the frequency or severity of claims are greater than estimated. Insurance events are random and the actual number of claims will vary from year-to-year from the estimated claims provision established using historical claims patterns and actuarial techniques.

Lewis Group Limited:  
CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

5. INSURANCE continued

Insurance risk continued

The development of insurance claims provisions provides a measure of the Group's ability to estimate the ultimate value of the claims. The Group does not underwrite long-term risks and, consequently, the uncertainty about the amount and timing of claim payments is limited. Regular estimates of claims are performed in reviewing the adequacy of the insurance claims provisions. Claims development is reviewed by management on a regular basis. Insurance claim provisions will generally be settled within one year.

The frequency and severity of claims can be affected due to unforeseen factors such as patterns of crime, pandemic and employment trends. The Group manages these risks through its underwriting strategy and proactive claims handling. The geographical spread of the Group ensures that the underwritten risks are well-diversified. No significant concentrations of insurance risk exist.

Catastrophe cover has been placed with third-party insurers in order to reduce the potential impact of a single catastrophic event on the earnings and capital of Monarch. Due to the nature of the insurance risk, claims can be measured reliably. Past experience has indicated that claims provision estimates approximates the actual claims costs. The insurance result is dependent on the trend in the Group's merchandising sales. There is no insurance business other than with the Group's customers.

Regulatory requirements

The Group's wholly owned insurance company, Monarch, is subject to the regulations as set out in the Short-Term Insurance Act, No. 53 of 1998, as amended, Long-Term Insurance Act, No. 52 of 1998, as amended and the Insurance Act, No. 18 of 2017 ("Insurance Acts").

The Insurance Acts, including the Financial Soundness Standards for Insurers and Microinsurers, became effective on 1 July 2018 and stipulate the calculation of the value of assets, liabilities and the solvency capital requirement of Microinsurers and requires Monarch to hold certain prescribed assets to meet its insurance liabilities and solvency capital requirement. Management confirms that Monarch meets the standards in terms of the requirements of the Insurance Acts.

5.5 Insurance cell captive

	2023 Rm	2022 Rm
Investment in insurance cell captive included in other receivables	56.4	37.3
Reconciliation		
Opening balance	37.3	10.7
Share of profit for the year	86.4	73.9
Dividends received	(67.3)	(47.3)
Closing balance	56.4	37.3

The Group has an economic interest in cell captives. These "cells" issue contracts that transfer insurance risk. The risks and rewards associated with these contracts are transferred to the Group through a cell agreement. The Group is required at all times to maintain the cell in a financially sound condition. The net profit or loss after tax from the cells is accounted for by the Group in insurance revenue in the income statement. The net investment in the cells is shown under other receivables in the balance sheet. The amounts payable to the Group in terms of the contract are subject to certain liquidity and solvency requirements of the insurance company.

Adjustment for interest on credit impaired accounts	(91.8)	(119.3)
	7 483.0	7 256.1

Accounting policies

Revenue

Revenue is measured based on the consideration specified in a contract with a customer and comprises merchandise sales net of discounts, earned finance charges and initiation fees, earned maintenance contracts, delivery and insurance premiums earned. Value added tax is excluded.

(i) Retail revenue

• Merchandise sales

Revenue from the sale of merchandise is recognised on the date of delivery. Sales are mainly conducted as follows:

- (a) By instalment sale and loan agreements. Such agreements are subject to credit legislation in the jurisdictions that the Group operates.
- (b) Cash and open accounts.

It is policy to sell goods with the right of return in terms of current consumer legislation. Such sales are cancelled where the right of return is exercised. Under IFRS 15, a refund liability for the expected refunds is recognised as an adjustment to revenue and trade and other payables. The corresponding right to recover the product from the customer is an adjustment to cost of sales and inventory.

• Ancillary services

Maintenance contracts

Revenue from maintenance contracts is recognised as follows:

- the income is deferred until the expiry of the one-year supplier’s warranty; and
- for the two subsequent years of the maintenance contract, revenue is recognised in accordance with the percentage stage of completion method using the expected costs of providing the service as an appropriate measure of the stage of completion. To establish the expected cost to provide the service, the Group reviews its historic incidence records on a rolling three-year period.

Other

Revenue from the provision of other services (mainly delivery and service fees) is recognised when the services are rendered.

(ii) Effective interest income

Interest income is calculated by applying the effective interest rate to the gross carrying value of financial assets except for financial assets that have subsequently become credit-impaired (or “stage 3”) for which interest revenue is calculated by applying the effective interest rate to their net carrying value (i.e. gross carrying value less impairment provision). The effective interest rate calculation does not consider expected credit losses but include initiation fees as they are integral to the effective interest rate.

(iii) Insurance revenue

Insurance revenue consists of gross insurance premiums. Insurance premiums are recognised on a straight-line basis over the period of the contract, after an appropriate allowance is made for unearned premiums.

Lewis Group Limited:

– Over time	642.6	–	642.6
	4 622.4	578.1	5 200.5

Significant accounting estimates and judgements

Disaggregation of revenue

The disaggregation of revenue from contracts with customers is in accordance with the reportable segments as this represents how the Group is managed in terms of its sales channels.

Transaction price

All transaction prices for ancillary services are stand alone and are at arm’s length (i.e. no services are bundled with the purchase of merchandise). Consequently, there are no allocations of transaction prices required.

Refund obligation

The accumulated experience of the portfolio has been utilised to estimate such returns at the time of sale. Our assessment is that no significant change in the level of returns will occur. The assumptions and the estimates underlying the refund liability are reassessed at each reporting date and there has been no material change in these assumptions and estimates for the current period.

Maintenance contracts

The maintenance contract is a two-year contract irrespective of the term of the instalment sale agreement. The first year is covered by a supplier’s warranty. The Group provides two-year extended warranty coverage in the second and third year. Revenue from maintenance contracts is recognised in accordance with the percentage stage of completion method using the expected costs of providing the service as an appropriate measure of the stage of completion. To establish the expected cost to provide the service, the Group reviews its historic incidence records on a rolling three-year period.

Delivery fees

Revenue from delivery fees is recognised at a point in time when delivery of the customer’s ordered goods is made and the transaction finally approved. The customer has the non-obligatory option to select delivery for their purchased goods at an additional cost.

Service fees

Service fees are the fees charged monthly in connection with the routine administration cost of maintaining a credit agreement and consequently, in accordance with paragraph 5.4.3 (a) of appendix B (implementation guidance) to IFRS 9, it is accounted for under IFRS 15.

Service fees are fixed and are not charged on a variable basis by the Group (i.e. not based on the price of the goods sold).

Revenue from service fees is recognised when the service is performed on a monthly basis over the duration of the credit agreement.

<b>Inventories</b>		
Cost of merchandise	925.1	1 076.5
Less: provision for obsolescence	(55.8)	(57.7)
	869.3	1 018.8

Included in the above is an adjustment for inventory with a right of return of R30.2 million (2022: R27.5 million). Refer to note 6 for details on the refund obligation.

**Accounting policy**

Inventory, comprising merchandise held for resale, is valued at the lower of cost or net realisable value. Cost is determined using the weighted average basis, net of trade and settlement discounts. It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less variable selling expenses. Provision is made for slow moving, redundant and obsolete inventory.

**Significant accounting estimates and judgements**

Provision for obsolescence is based on the ageing of inventory. Progressive provisioning is made as the age of inventory increases, to reflect the inventory at its net realisable value.

**Lewis Group Limited:**

## CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

**8. REPORTABLE SEGMENTS** continued**Accounting policy**

Operating segments are reported in a manner consistent with the internal reporting to the chief operating decision-makers. The chief operating decision-makers, who are responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief executive officer and the Chief financial officer.

The Group has identified its operating segments based on the chains that it operates. These segments reflect how the Group's businesses are managed and reported to the chief operating decision-makers. All of the business segments operate in the furniture retail business. Set out below is a summary of the operations in each of the operating segments of the Group:

**(i) Traditional**

Traditional business consists of the credit-focused brands:

**Lewis**

Lewis sells a range of household furniture, electrical appliances and home electronics to customers in the LSM\* 4 to 7 categories.

**Best Home and Electric**

Best Home and Electric is a retailer of electrical appliances, sound and vision equipment and furniture, targeting the LSM\* 4 to 7 customer.

**Beares**

Beares is a retailer of upmarket furniture, electrical appliances and home electronics primarily serving customers in the LSM\* 7 to 9 categories.

**(ii) Cash**

This is the cash-focused brand of UFO which retails luxury furniture to customers in the LSM\* 9+ categories.

Information regarding the performance of each segment is disclosed in the segmental report. Performance is measured on the basis of the operating profit (which includes the insurance underwriting result), as management believes that this measure is useful in evaluating the results of the segments, both in relation to each other and in relation to their respective competition. Investment income, net finance costs and taxation (i.e. the items that reconcile total segment operating profit to profit attributable to ordinary shareholders) are reviewed on a Group basis. Segment assets only include trade receivables and inventories as these are the asset categories that are likely to drive strategic action and are therefore monitored by the chief operating decision-makers on a continuous basis.

\* Based on Living Standards Measure ("LSM"), a market research segmentation tool applied in South Africa to classify standard of living and disposable income.

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

9. LEASES continued

9.4 Short-term and low value leases

	2023 Rm	2022 Rm
Expense relating to short-term and low value leases (included in other operating costs)	16.1	14.3

The total cash outflow in respect of lease liability payments is R374.2 million (2022: R358.7 million).

Accounting policies

The Group leases various properties such as stores, storerooms, warehouses and offices. Lease agreements are generally entered into for fixed periods of one to five years and may include further extension options. Leases are recognised as a lease liability and a corresponding right-of-use (“ROU”) asset at the date of commencement of the lease agreement.

Lease liabilities

Initial recognition and measurement

The lease liability will be measured at the present value of the future lease payments discounted over the lease term using the Group’s relevant incremental borrowing rate as the interest rate implicit in the lease is not readily determinable. Future lease payments comprise fixed lease payments (including in-substance fixed payments), less any lease incentives receivable. Future lease payments include lease extension options, where the option to exercise the extension is reasonably certain.

Subsequent measurement

Subsequent to initial recognition, the lease liability will be reduced by the lease payments made net of interest charged. The interest from the unwinding of the lease liability will result in a charge to the income statement over the period of the lease term.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related ROU asset) whenever:

A lease agreement is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

Low value leases

At inception of a lease, the Group assesses the value of the leased item. If the value of the item does not exceed the Group’s threshold, the Group recognises payments on a straight-line basis over the lease term.

Short-term leases

Short-term leases are defined as leases where the lease period is less than or equal to 12 months. The Group recognises payments on a straight-line basis over the lease term.

Right-of-use assets

Initial recognition and measurement

The ROU asset is initially measured at cost, comprising the initial lease liability, prepaid lease payments, initial direct costs and restoration costs, less any lease incentives received.

Subsequent measurement

Subsequent to initial recognition, the ROU asset will be depreciated on a straight-line basis over the shorter of the lease term and the estimated useful life of the ROU asset.

Impairment of right-of-use assets

ROU assets are tested for impairment whenever circumstances indicate that the carrying amount may exceed its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs to sell and value-in-use. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

9. LEASES continued

Significant accounting estimates and judgements

Incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore it uses the incremental borrowing rate to measure lease liabilities.

The incremental borrowing rate is defined as the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of similar value to the ROU asset in a similar economic environment. The relevant incremental borrowing rate is determined with reference to an appropriate risk-free rate and an additional margin that considers credit risk, the underlying collateral of the lease, liquidity limitations, and a lender’s funding costs and profit margins.

The Group’s portfolio of qualifying leases has a weighted average borrowing rate of 7.63% (2022: 7.27%).

Variable lease payments

Variable lease payments relate to:

- Lease agreements with negotiable extension options which provides for the lease payment to be negotiated at the time of renewal of the lease.
- Lease agreements containing variable payment terms that are linked to turnover from leased stores. These variable payments account for less than 5% of total property lease payments and are recognised in profit or loss in the period in which the condition that triggers those payments occurs.

Timing of lease payments

The timing of the lease payments have been taken into account in the discounted cash flow model used to calculate the lease liabilities.

Lease extension options

Lease agreements are typically made for fixed periods of one to five years and may include extension options. These options are used to maximise operational flexibility in terms of securing retail premises. The exercising of an extension option may result in renegotiation of existing lease payment terms.

Future lease payments include lease extension options, where the option to exercise the extension is reasonably certain. Management applies their judgement and considers all facts and circumstances in assessing the likelihood of exercising such options, based on strategic importance and profitability of each store. For warehouses, management will assess whether the lease extension option is reasonably certain with reference to the stores which the warehouse services. A lease extension option will automatically be included for storerooms that are linked to the stores it services.

Where it is found to be reasonably certain that the options will be exercised, the fixed and negotiable options will be dealt with in the following manner:

- For fixed extension options (the lease terms for the extension period are defined in the lease agreement), the last lease payment with a fixed escalation rate is used to calculate the future lease payments.
- The negotiable extension option provides for the lease terms to be negotiated at the time of exercising the option. For the purpose of the calculation of the future lease payments, the actual rent at the commencement date of the lease is used for every year in the extension period. Where subsequent material adjustments are agreed, both the lease liability and the ROU asset will be adjusted accordingly.

Rental concessions

The Group received rental concessions on some of its leases during the Covid-19 hard lockdown period when stores were closed. The amendment to IFRS 16 provides an optional practical expedient to lessees allowing the concession to be recognised as an immediate saving in rent expense.

The Group has elected not to apply this practical expedient but rather to treat the rent concessions received as a lease modification and has therefore processed an adjustment against the lease liability and ROU asset.

Lease components

Leases may include payments for maintenance activities such as common area maintenance, security and cleaning services or other goods or services transferred to the lessee. The additional services received are treated as non-lease components and expensed to the relevant category.

Low value leases

At inception of a lease, the Group assesses the value of the leased item. The total amount of low value leases is insignificant at the reporting date. Low value leases comprises of leased IT equipment.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

9. LEASES continued

Significant accounting estimates and judgements continued

Initial recognition of right-of-use assets

The ROU asset is initially measured at cost, comprising the initial lease liability, prepaid lease payments, initial direct costs and restoration costs, less any lease incentives received.

Impairment of right-of-use assets

ROU assets are tested for impairment whenever circumstances indicate that the carrying amount may exceed its recoverable amount. As the ROU assets are not able to generate their own cash flows independent from other assets, the Group considers the Cash-Generating Unit (“CGU”) as the individual store to which the ROU asset belongs when testing for impairment. Each CGU comprise assets typically including the debtors book, inventory, fixed assets, trademarks and the ROU asset. The identified CGUs do not include goodwill or software. Impairment indicators include the profitability of the stores after head office cost allocations as well as significant changes to the economic environment in which the store operates.

Due to the underperformance of the UFO segment, all UFO stores were tested for impairment. For the traditional segment, only stores with impairment indicators were tested for impairment.

An impairment loss is recognised for the amount by which the CGU's carrying amount exceeds its recoverable amount. The recoverable amount is determined using a value-in-use calculation.

Value-in-use is calculated using a discounted cash flow model whereby expected cash flows for individual stores are determined in accordance with the principles contained within IAS 36. The following assumptions are applied:

- The cash flow projections for each store is assessed based on forecasted information that is informed by past experience of management and the expected performance of the store. The projections at the end of the reporting period is based on management’s best estimate of the economic conditions that will exist over the medium-term.
- An average growth in cash receipts (debtor collections and cash sales) of 8.5% (2022: 5.8%) over the three-year period was applied. At the expiry of the lease, the company assesses future cash flows from the CGU using either a run-off model or a terminal value calculation. The run-off model uses a principle of continued collections from the existing debtors book or a terminal value growth rate of 6% (2022: 6%).
- The growth in the operating expenses approximate an inflationary increase.
- Lease payments included in the lease liability are excluded from the value-in-use calculation.
- The weighted average cost of capital (“WACC”) adjusted for specific risks of the underlying assets, used in the value-in-use calculation, was 23.0% (2022: 20.8%).

Impairment is allocated to the assets included in the CGU on a *pro rata* basis, based on their carrying value as a proportion of the total carrying value of the CGU.

Based on the above, the traditional segment had a reversal of impairment of R14.2 million and the UFO segment had an impairment of R37.1 million resulting in an overall net impairment charge for the year of R22.9 million (2022: R99.2 million).

Cost	138.8	314.3	341.4	794.5
Accumulated depreciation	(18.6)	(176.7)	(202.8)	(398.1)

A register of the Group's land and buildings is available for inspection at the company's registered office.

Accounting policy

Property, plant and equipment (“PPE”) is carried at cost less accumulated depreciation and impairment losses. The assets’ residual values and useful lives are reviewed and adjusted, if appropriate, at each balance sheet date.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are capitalised when it is probable that future economic benefits will arise and the cost can be measured reliably. All other expenditure is recognised through profit and loss.

Assets are depreciated to their residual value, on a straight-line basis, over their estimated useful lives.

Gains and losses on disposals of property, plant and equipment are determined by comparing the proceeds to the carrying amount and are recognised in the income statement.

Significant accounting estimates and judgements

The estimated useful lives and residual values are reviewed at each balance sheet date taking cognisance of historical trends for that class of asset and the commercial and economic realities at the time. The estimated useful lives of the assets in years are:

Buildings	50 years
Furniture, fixtures and equipment	3 to 10 years
Vehicles	4 to 8 years
Land	Not depreciated

Cost	96.8	73.2
Accumulated amortisation	(67.2)	(57.7)

Accounting policy

Software is depreciated to their residual value, on a straight-line basis, over their estimated useful lives.

Significant accounting estimates and judgements

The estimated useful life of software is three years.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

12. GOODWILL

	2023 Rm	2022 Rm
Opening net carrying value	151.0	182.4
Cost	182.4	182.4
Accumulated impairment	(31.4)	–
Impairment	(91.1)	(31.4)
Closing net carrying value	59.9	151.0
Cost	182.4	182.4
Accumulated impairment	(122.5)	(31.4)

Accounting policy

Goodwill arises at date of acquisition, being the excess of the purchase consideration and the fair value of the non-controlling interest, over the attributable fair value of the identifiable assets and liabilities, and is initially carried at cost. Goodwill is subject to an annual impairment test or more frequently if events or changes in circumstances indicate a potential impairment. Goodwill is written down to the recoverable amount, which is the higher of value-in-use and the fair value less costs to sell. This impairment is recognised immediately as an expense. The impairment of goodwill is not reversed. Gains and losses on disposal of an entity include the carrying value of goodwill relating to the entity sold.

A bargain purchase being an excess in the fair value of the identifiable assets and liabilities over the purchase consideration at the date of acquisition, is recognised immediately in the income statement.

Significant accounting estimates and judgements

The closing balance relates to goodwill that arose on the acquisition of UFO in 2018.

The UFO segment continued to underperform during the current financial year. The test for impairment of goodwill was performed by external valuers for the current and prior years. The recoverable amount of goodwill is the higher of fair value less costs to sell and value-in-use. The valuer used the fair value less costs to sell method in both the current and prior year.

Goodwill was assessed at both the interim and year-end reporting periods. At the interim reporting period, goodwill was written down by R24.6 million to R126.4 million. The annual goodwill test was performed at year-end and a further write-off of R66.5 million was required as trading performance continued to deteriorate. The assumptions below relate to the annual goodwill test performed at year-end.

The fair value less costs to sell valuation approach includes the cash flows of the existing stores as well as the planned new store expansion over the forecasted period. The forecast period was extended from 5 years (used in the 2022 valuation) to 10 years in the current period. Given the underperformance of the business over the past 2 years, utilising a forecast period of less than 10 years will result in a premature terminal value calculation as a more measured longer term growth strategy has been adopted.

The valuation to determine the recoverable amount of goodwill was performed at Level 3 (in accordance with IFRS 13) which means that the valuation was derived using the discounted cash flow method (“DCF method”). The assumptions underlying the DCF method are as follows, however note that these will not be directly comparable given the extended forecast period used in the current year:

- The 10-year cash flow projection for UFO is assessed based on forecasted information that is informed by past experience of management, the expected performance of the segment and the execution of the store rollout programme.
- Average sales growth for the forecasted period based on existing stores being 6.2% (2022: 7.3%) and planned store expansion with a 5.5% (2022: 4.0%) growth used in the terminal value.
- Earnings before interest, tax, depreciation and amortisation (“EBITDA”) margin of between -0.8% and 6.3% (2022: between 6.7% and 10.9%).
- Weighted average cost of capital (“WACC”) was calculated at 17.1% (2022: 19.1%). The reduction of the WACC is mainly attributable to the decrease in the specific risk factors as a result of the revised longer term growth strategy including the elongation of the store roll out programme.
- A further marketability discount of 5.0% (2022: 5.0%) was applied to arrive at the enterprise value.

Lewis Group Limited:  
CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

12. GOODWILL continued

Significant accounting estimates and judgements continued

The recoverable amount of goodwill was assessed as follows:

	2023 Rm	2022 Rm
Opening net carrying value	151.0	182.4
Impairment	(91.1)	(31.4)
Closing net carrying value	59.9	151.0

The opening carrying value of goodwill for the current year was R151.0 million (2022: R182.4 million) and the recoverable amount was calculated at R59.9 million (2022: R151.0 million), resulting in an impairment charge of R91.1 million (2022: R31.4 million).

As the WACC rate and the terminal growth assumptions have a significant impact on the enterprise value, a 1% change upwards and downwards in both assumptions have been shown separately in the sensitivity analysis below.

Sensitivity of WACC rate assumption

	WACC-1% R'000	WACC R'000	WACC+1% R'000
2023

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

14. BORROWINGS, CASH AND NET FINANCE COSTS

14.1 Borrowings, banking facilities and cash

Interest-bearing borrowings

	2023 Rm	2022 Rm
Short-term interest-bearing borrowings	(367.5)	(80.8)
Cash-on-hand and deposits	183.0	308.1
<b>Cash and cash equivalents</b>	<b>(184.5)</b>	<b>227.3</b>
<b>Available facilities</b>		
Banking facilities	950.0	950.0
Domestic Medium-Term Note programme	2 000.0	2 000.0
	<b>2 950.0</b>	<b>2 950.0</b>
<b>Available facilities</b>		
Available facilities include revolving credit and overnight facilities (short-term interest-bearing borrowings). Revolving credit facilities are at interest rates linked to three-month JIBAR. The interest rates on the overnight facilities are based on rates as determined by each of the banks based on market conditions.		
<b>Interest rate profile</b>		
The weighted average interest rate at the end of the reporting period for overnight facilities was 9.4% (2022: 6.0%).	367.5	80.8
	<b>367.5</b>	<b>80.8</b>
The exposure of the Group's borrowings to interest rate changes and the contractual repricing dates at the end of the reporting period are set out below in terms of years subsequent to reporting date:		
Variable interest rates:		
1 year	367.5	80.8
2 years	–	–
3 years	–	–
	<b>367.5</b>	<b>80.8</b>

The above borrowings are unsecured. The Group has committed and overnight facilities with banks and financial institutions of R950 million (2022: R950 million) and has established a Domestic Medium-Term Note programme (“DMTN”) under which the Group can issue notes up to R2 billion.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

14. BORROWINGS, CASH AND NET FINANCE COSTS continued

14.1 Borrowings, banking facilities and cash continued

Accounting policies

Borrowings comprise committed facilities with banks and financial institutions and notes issued under a DMTN programme.

Cash and cash equivalents comprise cash-on-hand and deposits held on call with banks and demand loans.

Borrowings and cash and cash equivalents are classified as financial instruments in terms of IFRS.

Interest income on cash-on-hand and deposits calculated utilising the effective interest rate method is recognised in the income statement as part of interest received.

Capital management

	2023 Rm	2022 Rm
Interest-bearing borrowings	1 312.5	1 031.1
Less: cash-on-hand and deposits	(183.0)	(308.1)
<b>Net debt</b>	<b>1 129.5</b>	<b>723.0</b>
Shareholders' equity	4 609.9	4 717.0
Gearing ratio (%)	<b>24.5</b>	15.3

Capital is monitored on the basis of the gearing ratio. This ratio is calculated as net debt divided by equity capital. Net debt is calculated as total interest-bearing borrowings less cash-on-hand and deposits.

The Group's objectives when managing capital are to:

- safeguard the Group's ability to continue as a going concern;
- provide returns for shareholders;
- provide benefits for other stakeholders; and
- maintain an optimal capital structure as approved by the Board.

In order to maintain the optimal capital structure, dividends paid to shareholders may be adjusted, capital could be returned to shareholders or new shares could be issued.

Credit risk

Credit risk may also arise when an entity has its credit rating downgraded causing the fair value of the Group's investment in that entity's financial instruments to fall. The credit ratings of the financial institutions holding deposits on our behalf and those whose securities we hold are monitored on a regular basis.

Stage 1 with no movement between stages. No amount for 12-month expected credit loss has been recognised as the amount is immaterial.

Deposits are placed with high-quality South African institutions. Included in the cash-on-hand and deposits are bank balances held in foreign currency amounting to R36.6 million (2022: R34.6 million).

The Moody's credit rating and maximum exposure to credit risk for cash-on-hand and deposits per institution is detailed in the table below:

Financial institutions	2023		2022		2023 Rm	2022 Rm
	Long-term	Short-term	Long-term	Short-term

Other					0.3	0.3
<b>Total</b>					<b>183.0</b>	<b>308.1</b>

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

14. BORROWINGS, CASH AND NET FINANCE COSTS continued

14.1 Borrowings, banking facilities and cash continued

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed facilities. Due to the dynamic nature of the underlying business, the Group maintains flexibility in funding through the use of committed facility lines.

Management monitors the Group's cash flows through the monitoring of actual inflows and outflows against forecasted cash flows and the utilisation of borrowing facilities. A quarterly analysis is presented to the audit committee.

As noted above, the Group has adequate facilities to meet its liquidity requirements.

Fair value

Cash and cash equivalents are stated at cost which approximates fair value due to the short-term nature of these instruments.

The fair value of borrowings approximates its carrying value as it is linked to market-related interest rates.

14.2 Net finance costs

	Note	2023 Rm	2022 Rm
Interest paid		(110.9)	(48.9)
Borrowings		(34.4)	(12.6)
Lease liabilities	9.1	(69.6)	(62.1)
Other		(6.9)	25.8*
Interest received – bank		16.1	14.4
Interest received – other		0.3	11.0
Foreign exchange gains/(losses)		21.9	(5.1)
		(72.6)	(28.6)

\* Included in this amount is a reversal of interest accrued in prior periods.

Accounting policies

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates are recognised in the income statement.

Foreign exchange gains and losses that relate to forward exchange contracts are presented in the income statement, within net finance costs.

Derivative instruments

Derivative instruments are utilised to hedge exposure to foreign currency fluctuations. Although the derivatives have not been designated in a hedge relationship, they act as an economic hedge and will substantially offset the underlying transactions when they occur. Derivative instruments are classified as financial instruments under IFRS.

Interest rate risk

The principal objective of interest rate management is to:

- minimise the impact of interest rate volatility on profits in the short-term; and
- ensure that the Group is protected from volatile interest rate movements for the medium- to long-term.

As part of the process of managing floating rate interest-bearing debt, the interest rate characteristics of borrowings are positioned according to the expected movements in interest rates. The Chief financial officer may recommend to the audit committee the use of fixed interest debt and interest rate swaps as circumstances dictate. The use of such instruments must be specifically approved by the audit committee. During the current year, no fixed rate loans or interest rate swaps were entered into.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

14. BORROWINGS, CASH AND NET FINANCE COSTS continued

14.2 Net finance costs continued

Interest rate risk continued

Interest rate profiles are analysed by the changes in its borrowing levels and the interest rates applicable to the facilities available to the Group. The sensitivity analysis for a 50 basis points change in the interest on net profit after tax is set out below, assuming the current level of borrowings at year-end is maintained throughout the year:

	2023 Rm	2022 Rm
Interest increases by 50 basis points	(1.5)	(0.3)
Interest decreases by 50 basis points	1.5	0.3

Foreign exchange risk

Foreign exchange risk is present in respect of imports of merchandise. Merchandise is sourced from foreign suppliers, particularly in the Far East. In order to minimise exposure to foreign currency fluctuations, forward cover is taken out to cover forward purchase commitments made with foreign suppliers.

During the year, 30.3% (2022: 32.8%) of the purchases were in foreign denominated currencies. Below is a summary of the amounts payable under forward contracts:

	Term	Average rate	Foreign currency FCm	Rand equivalent Rm	Fair value loss Rm
2023					
US Dollar	Less than 6 months	Rate at R17.95	2.6	47.9	0.3
2022					
US Dollar	Less than 6 months	Rate at R15.47	11.4	175.7	7.9

Below is a sensitivity analysis of the effect of currency movements of 10% on the year-end valuation of the forward exchange contracts on net profit after tax:

	2023 Rm	2022 Rm
Currency appreciates by 10%	3.5	12.7
Currency depreciates by 10%	(3.5)	(12.7)

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

15. CAPITAL MANAGEMENT continued

15.4 Equity continued

During the financial year, shares were repurchased in terms of section 48 of the Companies Act as follows:

	Number of shares repurchased	Average price R	Total value repurchased Rm
In terms of the general authority granted by shareholders at the annual general meeting held on 22 October 2021.	3 415 558	50.87	173.7
In terms of the general authority granted by shareholders at the special general meeting held on 12 August 2022.	596 185	47.26	28.2
In terms of the general authority granted by shareholders at the annual general meeting held on 28 October 2022.	1 508 918	48.95	73.8
	5 520 661		275.7

The shares repurchased above have reverted to authorised but unissued equity securities of the issuer in accordance with section 35(5) of the Companies Act.

Reverse acquisition reserve

On listing, Lewis Group Limited (“Lewis Group”) acquired the total shareholding of Lewis Stores Proprietary Limited (“Lewis Stores”) through issuing shares to the shareholder at that date. In terms of IFRS 3 requirements for reverse acquisitions, Lewis Stores was the acquirer and Lewis Group the acquiree, although Lewis Group is the holding company and Lewis Stores the subsidiary. The Group financial statements were in substance a continuation of the operations of Lewis Stores from the date that the reverse acquisition took place.

Treasury shares

The Lewis Employee Share Incentive Scheme Trust effectively holds 173 545 shares (2022: 108 249 shares), all of which will be utilised to cover share awards granted to executives.

15.5 Beneficial shareholders

According to the company’s register of disclosures of beneficial interests made by registered shareholders acting in a nominee capacity, the following entities owned in excess of 5% of the company’s shares as at 31 March 2023:

	Number of shares Total	% holding
Coronation Fund Managers (SA)	9 255 539	16.16
Peresec Prime Brokers (SA)	4 800 503	8.38

Distribution by foreign subsidiaries of all their reserves at balance sheet date will potentially give rise to withholding taxes of R85.2 million (2022: R84.7 million).

Accounting policy

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction from the proceeds, net of tax.

Where any group company purchases the company’s equity share capital (treasury shares), the consideration paid, including the costs attributable to the acquisition, is deducted from the Group’s equity until the shares are cancelled, reissued or disposed of. Where such shares are subsequently sold or reissued, any consideration received, net of transaction costs, is included in the Group’s equity. The weighted average number of shares is reduced by the treasury shares for earnings per share purposes. Dividends received on treasury shares are eliminated on consolidation.

Where shares are cancelled, the consideration paid including the cost attributable to the acquisition will be applied to the share premium account and once the share premium account is fully utilised, then the excess will be allocated to retained earnings.

**Accounting policies****Trade payables**

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as financial instruments in terms of IFRS.

The accounting policies for financial instruments are included in note 3.

**Provisions**

A provision is recognised when the Group has a present legal or constructive obligation as a result of past events, for which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

**Employment accruals**

Employee entitlements to annual leave and bonus are recognised as they accrue to employees when there is a legal or constructive obligation to make such payments as a result of past performance. An accrual is made for the estimated provision still owing as a result of services provided by employees up to the balance sheet date.

**Refund obligation**

Full details is set out in note 6.2 to the financial statements.

**Restoration provision**

A provision is recognised for the restoration costs associated with leased property. This is an estimate of costs to be incurred to restore the leased property back to its original state, as per the lease agreement. Restoration costs are provided for at the present value of expected future costs to settle the obligation and are recognised as part of the cost of the right-of-use asset. The future expected costs are based on past experience of management and is discounted at an appropriate discount rate. The estimated future costs of restoration are reviewed annually and adjusted accordingly.

**Cash-settled share-based payments**

Full details of the accounting policy is set out in note 18.3.2 to the financial statements.

**Lewis Group Limited:**

**17. PAYMENTS IN ADVANCE**

	2023 Rm	2022 Rm
Opening balance	181.1	162.8
Revenue recognised in the period previously included in the opening balance	(124.0)	(108.0)
Liability raised during the current period	132.5	126.3
Closing balance	189.6	181.1

Payments in advance arise:

- in the case of a maintenance contract (refer note 6.2) where customers have settled their accounts or where customers have paid in advance of Lewis' performance obligations, which will typically be satisfied over a period of three years from the date of that maintenance contract; and
- in the case where customers have paid in advance for goods still to be delivered under the sales contract, which will be satisfied when those goods are delivered to the customer.

Management expects that R128.2 million (2022: R124.0 million) of the transaction price allocated to the unsatisfied contracts as at 31 March 2023 will be recognised as revenue during the next reporting period and the remaining R61.4 million (2022: R57.1 million) during the following reporting period.

**18. DIRECTORS AND EMPLOYEES****18.1 Employment costs**

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

18. DIRECTORS AND EMPLOYEES continued

18.3 Share-based payments

	2023 Rm	2022 Rm
18.3.1 Equity-settled		
Value of services provided: In respect of share awards granted.	25.8	21.1

For further details of the equity-settled scheme, refer note 18.4.1.

Accounting policy

The Group operates a number of equity-settled share incentive schemes under which the entity receives services from employees as consideration for equity instruments (options) of the Group. The fair value of the employee services received in exchange for the grant of share awards and options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of share awards and options granted, excluding the impact of service and non-market performance vesting conditions. Non-market performance and service vesting conditions are included in the assumptions about the number of options that are expected to become exercisable. The total amount expensed is recognised over the vesting period, which is the period over which all vesting conditions are to be satisfied. At each balance sheet date, the Group revises its estimates of the number of options that are expected to become exercisable. It recognises the impact of the revision of original estimates, if any, in the income statement, with a corresponding adjustment to equity. Any accelerated vesting of the share awards and options requires immediate recognition of the remaining expense. On vesting, the attributable value of share awards is transferred from the share-based payment reserve to retained earnings.

Share awards granted by the company over its equity instruments to the employees of subsidiary undertakings in the Group are treated as a capital contribution. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary and a corresponding credit to equity.

Significant accounting estimates and judgements

As the fair value of the services received cannot be measured reliably, the services have been valued by reference to the fair value of shares granted. The fair value of such shares is measured at the grant date using the Black-Scholes model. The assumptions used in the Black-Scholes model are as follows:

		2023	2022
Weighted average share price	(R)	33.85	25.46
Weighted average expected volatility	(%)	97.5	96.5
Weighted average expected dividend yield	(%)	6.8	6.6
Weighted average risk-free rate (bond yield curve at date of grant)	(%)	6.9	7.2

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

18. DIRECTORS AND EMPLOYEES continued

18.3 Share-based payments continued

18.3.2 Cash-settled

Two cash-settled schemes, namely the Lewis Cash-Settled Long-Term and Short-Term Executive Performance Plan and the Lewis 2022 Cash Settled Executive Performance Plan, will operate on the identical basis as the Lewis Long-Term and Short-Term Executive Performance Scheme and the Lewis 2021 Executive Performance Scheme respectively, except notional shares will be issued and vesting will take place in cash. Awards under these schemes have been granted annually to qualifying executives since 2019.

	2023 Rm	2022 Rm
Opening balance	68.0	23.6
Income statement charge before revaluation of liability	16.2	18.1
Revaluation of liability	13.2	29.2
Payments made	(49.0)	(2.9)
Closing balance	48.4	68.0

For further details of the cash-settled scheme, refer note 18.4.2.

Accounting policy

The Group recognises a liability for awards granted under the cash-settled scheme measured at fair value at the grant date. The fair value is expensed over the period until the vesting date, with a corresponding increase in the liability. The liability is remeasured to fair value at each reporting date up to and including the settlement date. All changes in the fair value of the liability are recognised in employment costs.

Significant accounting estimates and judgements

As the fair value of the services received cannot be measured reliably, the services have been valued by reference to the fair value of shares granted as at year-end. The fair value of such shares is measured at year-end using the Black-Scholes model. The assumptions at year-end used in the Black-Scholes model are as follows:

		2023	2022
Share price	(R)	41.00	47.00
Expected volatility	(%)	32.5	49.2
Expected dividend yield	(%)	7.6	6.7
Risk-free rate (bond yield curve at year-end)	(%)	7.0	6.5

18.4 Share incentive schemes (Equity and Cash-Settled)

18.4.1 Equity-settled Schemes

The following employee share incentive schemes are in operation during the current year for directors holding salaried employment office and executives.

Lewis 2022 Executive Retention Scheme	This was approved at the last annual general meeting held on 28 October 2022. No awards have been granted under this scheme yet and consequently the scheme has not been described below.
Lewis 2019 Executive Retention Scheme	Approved at the annual general meeting on 25 October 2019. It has outstanding awards that were granted in 2020, 2021 and 2022.
Lewis 2021 Executive Performance Scheme	This scheme was approved at the annual general meeting on 22 October 2021. In 2022, the first awards were made under this scheme being both short term and long term awards.
Lewis 2019 Executive Performance Scheme	Approved at the annual general meeting on 25 October 2019. It has outstanding short term awards that were granted in 2020, 2021 and 2022.
Lewis Executive Retention Scheme	This was approved at the shareholders meeting on 24 June 2015. The last awards vested during the current year. The scheme limits have been reached and no further awards will be made.
Lewis Long-Term and Short-Term Executive Performance Scheme	This was approved at the shareholders meeting on 24 June 2015. The last awards vested in 2021. As the scheme limits have been reached, no further awards will be made.

The Group is required to provide funding to the Lewis Employee Incentive Scheme Trust in terms of the Trust Deed and the Contribution Agreement.

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

18. DIRECTORS AND EMPLOYEES continued

18.4 Share incentive schemes (Equity and Cash-Settled) continued

18.4.1 Equity-settled Schemes continued

The weighted average share price at vesting date was R49.80 (2022: R32.95).

The weighted average remaining contractual life for share awards outstanding at the end of the period is 1.6 years (2022: 1.5 years).

Note: Invested shares are those shares paid through the investment of executives net bonuses.

**Lewis 2019 Executive Retention Scheme**

In terms of the scheme, senior executives have been offered the right to acquire shares of the Group for no consideration subject to the achievement of performance targets. The committee will select executives who have achieved the requisite performance targets during the previous financial year as eligible for the scheme. The shares will vest after three years and is conditional upon the executive still being in the employ of the Group other than in the event of death, ill-health, retirement or retrenchment.

The percentage of the cash-based performance bonus that can be invested in the scheme is at the discretion of the remuneration committee with the minimum percentage being 25% and the maximum percentage being 100%.

These shares (vested shares) are deferred for three years and matching shares equal to the before-tax bonus are awarded for no consideration at the end of the period. The matching share award will lapse, should the executive terminate his or her employment before the completion of the three-year period other than in the event of death, ill-health, retirement or retrenchment.

The Group is entitled to a clawback of shares through the repurchase and cancellation of shares held by the participant and/or equivalent in money where the shares have not been repurchased and cancelled where the executive:

- Is dismissed for misconduct involving fraud, misrepresentation and/or dishonesty and fails materially to perform his duties.
- Is accused of serious misconduct that would warrant dismissal, he or she resigns from his/her employment prior to the outcome of the disciplinary proceedings.

**Lewis 2021 Executive Performance Scheme and the Lewis 2019 Executive Performance Scheme**

As these two schemes have materially the same requirements, terms and conditions, they will be detailed below on a consolidated basis.

Awards made under this scheme offer executives the right to acquire shares for no consideration, subject to the achievement of performance targets determined by the committee. The vesting of shares is conditional upon the executive still being in the employ of the Group other than in the event of death, ill-health, retirement or retrenchment.

Performance targets may be adjusted where material changes (both positive and negative) have been made to accounting policies resulting from IFRS becoming effective after the grant date. The committee shall be entitled, in exceptional circumstances (both positive and negative), to amend performance targets having regard to all circumstances including, but not limited to, changes to international and national macro economic circumstances, the performance of the Lewis Group relative to the industry in which it operates and any corporate actions undertaken by the Lewis Group during the relevant performance period.

For purposes of determining the performance targets, awards are categorised as follows:

- short-term awards means three-year awards or alternative awards in respect of which all portions of the award vest on or before the third anniversary of the grant date; and
- long-term awards means the four-year awards, five-year awards and alternative awards of which any portion of the awards vests after the third anniversary of the grant date.

In respect of short-term targets, performance targets are set at the grant date for the entire period or for each financial year during the performance period. For long-term awards, the performance targets will be set for the entire performance period as at grant date.

The scheme allows for the vesting at certain percentages where the performance target has not been met. The table below sets out the percentages:

Equal or greater than 100% of target	100% vested
97.5% to 100% of target	25% vested
95% to 97.5% of target	10% vested
Less than 95% of target	No vesting

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

18. DIRECTORS AND EMPLOYEES continued

18.4 Share incentive schemes (Equity and Cash-Settled) continued

18.4.1 Equity-settled Schemes continued

Lewis 2021 Executive Performance Scheme and Lewis 2019 Executive Performance Scheme continued

For short-term awards, the committee shall select all or any of the performance targets from the following:

- headline earnings per share;
- quality of debtors book being either level of satisfactory paid customers or debtor costs as a percentage of debtors at gross carrying value; and
- gross margin.

Current short-term awards under the scheme use all three performance measures.

For long-term awards, the committee must select the performance targets as follows:

- Headline earnings per share (mandatory) and at least one of the targets below:
  - Return on shareholders’ equity.
  - After-tax return on average capital employed.
  - Before-tax return on average assets managed.
  - Gearing ratio.

During the year, long-term awards were issued under the Lewis 2021 Executive Performance Scheme. The performance measures used for purposes of these long term awards was headline earnings (which is mandatory), return on shareholders equity and the gearing ratio.

The Group is entitled to a clawback of shares through the repurchase and cancellation of shares held by the participant and/or equivalent in money where the shares have not been repurchased and cancelled where the executive:

- Is dismissed for misconduct involving fraud, misrepresentation and/or dishonesty and fails materially to perform his duties.
- Is accused of serious misconduct that would warrant dismissal, he or she resigns from his/her employment prior to the outcome of the disciplinary proceedings.

Lewis Executive Retention Scheme

The terms of this scheme are substantively the same as the Lewis 2019 Executive Retention Scheme except that the following clauses are not included:

- The percentage of the cash-based performance bonus that can be invested in the scheme is at the discretion of the remuneration committee with the minimum percentage being 25% and the maximum percentage being 100%. Under this scheme, 100% of the bonus can be invested by the selected participants.
- The Group is entitled to a clawback of shares through the repurchase and cancellation of shares held by the participant and/or equivalent in money where the shares have not been repurchased and cancelled where the executive:
  - Is dismissed for misconduct involving fraud, misrepresentation and/or dishonesty and fails materially to perform his duties.
  - Is accused of serious misconduct that would warrant dismissal, he or she resigns from his/her employment prior to the outcome of the disciplinary proceedings.

Under the Lewis Executive Retention Scheme, the above clawback does not apply.

Lewis Long-Term and Short-Term Executive Performance Scheme

The terms of this scheme are substantively the same as the Lewis 2019 Executive Performance Scheme except for the following clause which is not included:

- The Group is entitled to a clawback of shares through the repurchase and cancellation of shares held by the participant and/or equivalent in money where the shares have not been repurchased and cancelled where the executive:
  - Is dismissed for misconduct involving fraud, misrepresentation and/or dishonesty and fails materially to perform his duties.
  - Is accused of serious misconduct that would warrant dismissal, he or she resigns from his/her employment prior to the outcome of the disciplinary proceedings.

Under the Lewis Long-Term and Short-Term Executive Performance Scheme, the above clawback does not apply.

- The new scheme allows for the vesting at certain percentages where the performance target has not been met. The table below sets out the percentages:

Equal or greater than 100% of target	100% vested
97.5% to 100% of target	25% vested
95% to 97.5% of target	10% vested
Less than 95% of target	No vesting

Under the Lewis Long-Term and Short-Term Executive Performance Scheme, the performance target was either met resulting in full vesting or not which resulted in no vesting at all.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

18. DIRECTORS AND EMPLOYEES continued

18.4 Share incentive schemes (Equity and Cash-Settled) continued

18.4.2 Cash-settled Schemes

The cash-settled schemes adopted by the company have been based on existing equity-settled schemes. Under these schemes, notional shares are allocated to participants and on date of vesting, the notional shares are settled in cash. Other than these cash-settled aspects, the terms and conditions of these schemes are almost identical to that of their corresponding equity-settled scheme.

The following cash-settled schemes are in operation during the current year for directors holding salaried employment office and executives.

Lewis 2022 Cash-Settled Executive Performance Plan	This was approved by the remuneration committee on 5 July 2022. Awards under the scheme were granted in 2022. This plan is based on the equity-settled Lewis 2021 Executive Performance Scheme and the Lewis 2019 Executive Performance Scheme.
--	---

Lewis Cash-Settled Long-Term and Short-Term Executive Performance Plan	This was approved by the remuneration committee on 17 May 2019. The plan is based on Lewis Long-Term and Short-Term Executive Performance Scheme. The first awards under this scheme were made in 2019. Outstanding awards under this scheme are those granted in 2020 and 2021. It is the intention to terminate this plan once all the awards are vested.
--	---

For further details on the terms and conditions of the above plans, refer to the corresponding equity-settled scheme under note 18.4.1.

All awards are short-term awards and included all the performance criteria applicable to such awards. Below is a reconciliation of the notional shares granted under the various plans:

	Lewis Cash-Settled 2022 Executive Performance Plan – Notional Shares	Lewis Cash-Settled Long-Term and Short-Term Executive Performance Plan – Notional Shares

The defined benefit funds are final salary defined benefit plans. These schemes are valued by an independent actuary on an annual basis in terms of IAS 19 using the projected unit credit method. The latest valuation was carried out as at 31 December 2022.

The above defined benefit retirement plan asset was subject to the asset ceiling as determined in IFRIC 14 being the maximum economic benefit arising from a future unconditional right to a refund and from reductions in future contributions in excess of the minimum funding requirement. The effect of the application of the asset ceiling was to reduce the defined retirement plan asset by R71.2 million (2022: R84.1 million).

The employer’s future contribution is set on an annual basis in consultation with the fund’s actuary.

18.5.4 Defined benefit retirement plans continued

Accounting policy

A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity. The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods. A defined benefit plan is a pension plan that is not a defined contribution plan.

Typically defined benefit plans define an amount of pension benefit that an employee will receive on retirement, dependent on factors such as age, years of service and compensation.

The Group operates a number of defined benefit and defined contribution plans, the assets of which are held in separate trustee-administered funds. These plans are funded by payments from employees and group companies, taking into account the recommendations of independent, qualified actuaries. The defined benefit obligation is assessed annually by a qualified actuary, in terms of IAS 19, using the projected unit credit method.

The asset and liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that have terms to maturity approximating the terms of the related pension obligation.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Past-service costs are recognised immediately in the income statement.

Significant accounting estimates and judgements

The underlying actuarial assumptions of the retirement benefit asset and liability with a sensitivity analysis are set out below:

Principal actuarial assumptions:	2023	2022
Discount rate	(%) 11.4	10.5
Inflation rate	(%) 6.2	6.9
Future salary increases	(%) 7.2	7.9
Future pension increases	(%) 6.2	6.9

The weighted average duration of the actuarial liability is 10.7 years (2022: 12.8 years).

Lewis Group Limited:  
CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

18. DIRECTORS AND EMPLOYEES continued

18.5 Retirement benefits continued

18.5.4 Defined benefit retirement plans continued

Significant accounting estimates and judgements continued

Sensitivity analysis

The effect of an increase and decrease in the following assumptions on the present value of the obligation are shown in the table below:

Assumption	% Variation	% Change in present value of obligation	
		2023	2022
Discount rate	+1	(1.3)	(11.0)
	-1	3.5	12.4
Salary increases	+1	4.1	3.0
	-1	(3.6)	(3.6)
Pension increases	+1	9.3	8.6
	-1	(7.9)	(8.4)
Post-retirement mortality	+1 year	2.9	3.0
	-1 year	(2.9)	(2.1)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

Assumptions regarding future mortality experience are based on advice, published statistics and experience. The average life expectancy in years of a pensioner retiring at age 65 on valuation date is as follows:

		2023	2022
Male	(years)	15.9	12.5
Female	(years)	19.8	14.6
Actual return on plan assets	(%)	2.7	21.0

	2023 Rm	2022 Rm
Expected contributions to the defined benefit plans for the next annual reporting period	8.1	8.5

Actuarial risks

The risks faced by Lewis as a result of the defined benefit retirement plans are set out below:

Investment risk is the risk of a fall in the asset values of the fund. This market risk to which the funds are exposed may affect the solvency level of the funds. This is reduced via an investment in a diverse portfolio of assets and a variety of asset managers.

Inflation risk is the risk that salary increases are higher than expected or that inflation itself is higher than expected which then impacts the pension increases, increasing the liabilities. The risk is mitigated via investment in real assets which in the long run are expected to match the increases in liabilities.

The funds have a mismatch risk as a change in the bond yields will have the effect on the liabilities of the fund which are not necessarily matched by an equivalent change in the assets. The risk is substantially covered by the surplus assets in the fund and establishment of a solvency reserve.

Liquidity risk is the risk of not having sufficient cash to pay for withdrawals, pensions and expenses of the fund. This may be a risk for the Lewis Stores Group Pension Fund due to it being a closed fund.

Longevity risk is the risk that pensioners live longer than expected. This risk has not been significant in the current membership profile.

The funds are exposed to legislative changes which are closely monitored by the fund's consultant to enable timeous action to be taken to mitigate any changes that emerge.

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED  
for the year ended 31 March 2023

18. DIRECTORS AND EMPLOYEES continued

18.5 Retirement benefits continued

18.5.5 Post-retirement healthcare benefits

	2023 Rm	2022 Rm
Present value of post-retirement healthcare benefits liability	72.7	75.8
<b>Movement in post-retirement healthcare liability</b>		
Present value of liability at the beginning of the year	75.8	77.1
Charged to income statement	8.8	9.4
Current service cost	0.5	0.6
Interest cost	8.3	8.8
Actuarial (gains) and losses included in other comprehensive income	(6.2)	(5.0)
Employer benefit payments	(5.7)	(5.7)
Post-retirement healthcare benefits liability	72.7	75.8

The liability was valued as at 31 March 2023 by a qualified actuary in accordance with the requirements of IAS 19.

Accounting policy

The Group has an obligation to provide post-retirement medical aid benefits by subsidising medical aid contributions of certain retired employees and *ex-gratia* pensioners who joined the Group prior to August 1997.

The entitlement to these benefits is conditional on the employee remaining in service up to retirement age. The expected costs of these benefits are accrued over the period of employment using the same accounting methodology as used for defined benefit pension plans. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. These obligations are valued annually by independent qualified actuaries.

Significant accounting estimates and judgements

The underlying assumptions of the post-retirement healthcare benefit liability with a sensitivity analysis are set out below:

Principal actuarial assumptions:		2023	2022
Health care inflation rate	(%)	8.7	8.4
CPI inflation	(%)	6.7	6.4
Discount rate	(%)	12.2	11.4
Average retirement age	(years)	65	65

The weighted average duration of the actuarial liability is 10.7 years (2022: 11.6 years).

Lewis Group Limited:

18. DIRECTORS AND EMPLOYEES continued

18.5 Retirement benefits continued

18.5.5 Post-retirement healthcare benefits continued

Significant accounting estimates and judgements continued

Sensitivity analysis

The effect of an increase and decrease in the following assumptions on the present value of the obligation are shown in the table below:

Assumption	% Variation	%Change in present value of obligation	
		2023	2022
Discount rate	+1	(8.8)	(9.2)
	-1	10.4	11.0
Healthcare cost	+1	10.5	11.1
	-1	(8.9)	(9.3)
Expected retirement age	+1 year	(1.5)	(1.4)
	-1 year	1.6	1.6

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

Actuarial risks

The risks faced by Lewis as a result of the post-retirement healthcare obligation can be summarised as follows:

**Inflation:** The risk that future CPI inflation and healthcare cost inflation are higher than expected and uncontrolled.

**Longevity:** The risk that pensioners live longer than expected and thus their healthcare benefit is payable for longer than expected.

**Open-ended, long-term liability:** The risk that the liability may be volatile in the future and uncertain.

**Future changes in legislation:** The risk that changes to legislation with respect to the post-employment healthcare liability may increase the liability for Lewis.

18.5.6 Defined contribution plans

	2023 Rm	2022 Rm
Defined contribution plan costs	62.5	60.9

Accounting policy

For defined contribution plans, the Group pays contributions to these separately administered funds on a mandatory basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

<b>Deferred tax liability</b>	<b>39.7</b>	<b>27.4</b>
	<b>(13.3)</b>	<b>(55.3)</b>

Deferred tax assets relate to provisions which are not deductible for tax purposes. The deferred tax asset will be reversed as these provisions are released. The Group has concluded that the deferred tax asset will be recoverable using estimated future taxable income based on approved budgets for the entities.

Accounting policy

Current and deferred taxation

The tax expense comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at balance sheet date in the countries where the company and its subsidiaries operate and generate taxable income. The Group evaluates positions taken in tax returns with respect to situations in which applicable legislation and regulations are subject to interpretation. Appropriate provisions are established on the basis of amounts expected to be paid to the tax authorities.

Deferred taxation, using the liability method, is provided on temporary differences between the taxation base of an asset or liability and its carrying value. Deferred taxation is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred taxation is calculated at current or substantively enacted rates of taxation at balance sheet date. A deferred tax asset is raised to the extent that it is probable that sufficient taxable profit will arise in the foreseeable future against which the asset can be realised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same authority in the same taxable entity.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities on the IFRS 16 right-of-use assets and lease liabilities are recognised on initial recognition.

Significant accounting estimates and judgements

The tax and deferred tax liabilities and assets are calculated using considered interpretations of the tax laws of the jurisdictions in which the Group operates.

Lewis Group Limited:

CONSOLIDATED FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

21. IMPACT OF CIVIL UNREST IN SOUTH AFRICA

The widespread violence and looting experienced in KwaZulu-Natal and parts of Gauteng during July 2021 impacted 57 of the Group's stores during the previous reporting period.

The final payment of R9.9 million in respect of the material damage claim was received in the current period, resulting in a total insurance receipt of R78.8 million. The 2022 financial year results includes inventory write-offs, losses relating to scrapping of assets and the related insurance recoveries.

The Group has separate cover for business interruption losses and has submitted a claim for the losses incurred, however this is still being finalised.

22. GROUP CONSOLIDATION

Accounting policies

Basis of consolidation

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is applied for business combinations. The consideration for an acquisition is measured as the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of the exchange. Acquisition-related costs are expensed as incurred. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The excess of the consideration and the amount of the non-controlling interest, over the fair value of the net identifiable assets, is recorded as goodwill. If the amounts are less than the fair value of the net identifiable assets of the subsidiary acquired, the difference is recognised directly in the income statement as a bargain purchase.

The Group recognises a non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the proportionate share of the acquiree's net identifiable assets.

Inter-company transactions, balances and unrealised gains and losses (unless the transaction provides evidence of an impairment of the transferred asset) between group companies are eliminated. The accounting policies and the year-ends of material subsidiaries are consistent throughout the Group.

Common control transactions are business combinations in which the combining entities are ultimately controlled by the same entity prior to the combination. The assets and liabilities of the combining entities are not adjusted to fair value but reflected at their carrying amounts at the date of the transaction. The difference between the consideration paid/transferred and the net asset value acquired is accounted for in retained earnings. No additional goodwill will be recognised as a result of a common control transaction.

Employee share trusts are consolidated. Shares in Lewis Group Limited held by subsidiaries and the Lewis Employee Incentive Scheme Trust are classified as treasury shares.

In the company's financial statements, investments in subsidiaries are carried at cost less impairment. Cost of investments includes directly attributable costs.

Functional and presentation currency

(a) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated and separate financial statements are presented in South African Rand, which is the company's and Group's functional and presentation currency.

(b) Group companies

The results and financial position of foreign operations (none of which operate in a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities are translated at the closing rate at the date of the balance sheet.
- Income and expenses are translated at average exchange rates.
- Resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities are recognised in other comprehensive income. On the sale of a foreign operation, the associated exchange differences are reclassified to the income statement, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

Lewis Group Limited:

24. OTHER NOTES

24.1 Other accounting policies

<b>Impairment of non-financial assets</b>
Assets that have an indefinite useful life are not subject to amortisation, but tested annually for impairment. Assets that are subject to amortisation and depreciation are reviewed for impairment whenever circumstances indicate that the carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value-in-use. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.
<b>Current assets and liabilities</b>
Assets and liabilities with maturity terms of less than 12 months, are classified as current unless they form part of a normal operating cycle, in which case, they are also classified as current.

24.2 New standards and interpretations not yet effective

IFRS 17 *Insurance Contracts*

The Group offers customer protection insurance, under its micro-insurance licence, to its customers through its subsidiary company, Monarch. Customer protection insurance provides cover to customers purchasing goods on an instalment sale basis in the event of death, disability, material damage, or loss of income.

The IASB issued IFRS 17, *Insurance Contracts*, as a replacement to the current standard, IFRS 4. IFRS 17 defines clear and consistent rules that will significantly increase the comparability of financial statements between insurers.

The new standard will become effective for the Group during the 2024 financial year with full retrospective adoption, therefore requiring the restatement of comparatives from 1 April 2022.

Under IFRS 17, the standard prescribes a general measurement model (GMM) and provides for a simplified model under the premium allocation approach (PAA). This simplified model is applicable to certain types of contracts, including those with a coverage period of one year or less and where the eligibility test results in there not being a material difference between the GMM and PAA. The coverage period provided by Monarch is the same as the instalment sale contract (i.e. longer than one year), therefore eligibility testing needs to be performed. The conclusion reached was that the insurance business is likely to be eligible to apply the PAA model.

IFRS 17 will not change the amount of profit that is earned over the lifetime of the insurance contract but does impact the trajectory of profit recognition.

Whilst the assessment of the profitability impact has not yet been completed, the known impacts on the profitability trajectory will result from the discounting of the insurance liabilities, the risk adjustment to the liability for incurred claims and the impact of amortising acquisition costs over the coverage period.

The adoption of IFRS 17 will have a material impact on the presentation of the Group income statement and supporting disclosures. The main impact being that the attributable costs of providing insurance services will be reallocated from operating costs and separately disclosed as insurance service expenses.

Implementation project update

A project team which comprises of a third-party implementation partner and the senior Lewis finance management team is responsible for the implementation of IFRS 17. The project team is chaired by the Group CFO and overall governance of the project resides with the Group's audit committee.

The key milestones of the implementation project are on track and the Group's interim results for the half year ended 30 September 2023 will include the adoption of IFRS 17.

Amendments to IAS 12: Deferred tax related to assets and liabilities arising from a single transaction

The IAS 12 amendment will become effective for the Group for the first time during the 31 March 2024 year-end.

The amendment to IAS 12 will have no impact as the Group currently recognises the deferred tax asset and deferred tax liability on initial recognition of IFRS 16 right-of-use assets and lease liabilities.

	(10.0)	(10.1)

8. CASH-ON-HAND AND DEPOSITS

	2023 Rm	2022 Rm
At amortised cost	18.2	77.8

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The credit ratings of the financial institutions holding deposits on our behalf and those whose securities we hold are monitored on a regular basis. Deposits are placed with high-quality South African institutions.

The Moody's credit rating and maximum exposure to credit risk for deposits per institution is detailed in the table below:

Financial institutions	2023		2022		2023 Rm	2022 Rm
	Long-term	Short-term	Long-term	Short-term		
FirstRand Bank	Ba2	NP	Ba2	NP	18.2	77.8
<b>Total</b>					<b>18.2</b>	<b>77.8</b>

Stage 1 with no movement between stages. No amount for 12-month expected credit loss has been recognised as the amount is immaterial.

Fair value

The fair value of deposits approximates its carrying value as it is linked to market related interest rates.

Lewis Group Limited:

NOTES TO THE COMPANY FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2023

9. GUARANTEES

The company guarantees revolving credit facilities to the value of R250 million (2022: R250 million\*) for its subsidiaries at various financial institutions. Based on a review of the cash flows forecast for the 2024 and 2025 financial year, no expected credit loss was recognised on these guarantees. The guarantees have been disclosed as part of the company's liquidity risk below.

Credit risk

While the maximum credit risk is the full extent of the facilities that the company guarantees, there is no exposure at year end as the facilities are undrawn. Full details of the facilities are provided in note 14.1 in the consolidated annual financial statements.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed facilities. Due to the dynamic nature of the underlying business, the Group maintains flexibility in funding through the use of committed facility lines. Management monitors the Group's cash flows through the monitoring of actual inflows and outflows against forecasted cash flows and the utilisation of borrowing facilities. A quarterly analysis is presented to the audit committee. The company's liquidity needs are catered for under the Group's central treasury function.

Maturity profile of financial liabilities

The maturity profiles of undiscounted financial liabilities are as follows:

	0 to 12 months Rm	1 to 2 years Rm	3 to 5 years Rm	>5 years Rm	Total Rm
<b>2023</b>					
Trade and other payables	(2.5)	–	–	–	(2.5)
Amounts due to subsidiary	(11.7)	–	–	–	(11.7)
Financial guarantees <sup>(1)</sup>	(250.0)	–	–	–	(250.0)
	(264.2)	–	–	–	(264.2)
<b>2022</b>					
Trade and other payables	(2.1)	–	–	–	(2.1)
Amounts due to subsidiary	(9.5)	–	–	–	(9.5)
Financial guarantees <sup>(1)</sup>	(250.0)*	–	–	–	(250.0)
	(261.6)	–	–	–	(261.6)

<sup>(1)</sup> This represents the maximum potential exposure to credit risk under financial guarantee contracts.

\* The company only guarantees the revolving credit facility of R250 million (previously R950 million in time band 0-12 months) that is held by its subsidiaries and not the total facility, as was incorrectly disclosed in the prior year.

10. RELATED PARTY

	2023 Rm	2022 Rm
<b>Amounts due to subsidiary</b>		
Lewis Stores (Pty) Ltd	11.7	9.5

Amounts due have no fixed terms of repayment and is interest free.

Appendix A

AUDIT COMMITTEE PROFILES

DAPHNE MOTSEPE (66)

BCompt, MBA  
*Independent non-executive director*  
Chairperson of the audit and risk committee; Member of the remuneration, nominations, and social, ethics and transformation committees.

Appointed as director on 1 June 2017.

Directorships

Kapela Holdings (Pty) Limited, NEC XON Holdings (Pty) Limited, Toyota Tsusho Africa, CFAO Motors South Africa (Pty) Limited.

Experience and expertise

Daphne is an experienced banking executive and company director. She was formerly the chief executive of Absa card and unsecured lending at Absa Bank and also served as managing director of Postbank. She previously served as a non-executive director of Investec Bank, Highveld Steel and Vanadium, Edcon, Mercantile Bank, Woolworths Financial Services, Rand Mutual Assurance and Thebe Investment Corporation.

Specific contribution to the Board

Daphne’s experience includes serving as chairperson of remuneration as well as social, ethics and transformation committees of other boards and serving as a member of the audit, risk as well as nominations/directors affairs committees.

FATIMA ABRAHAMS (60)

BEcon (Hons), MCom, DCom  
*Independent non-executive director and lead independent director*  
Chairperson of the remuneration and social, ethics and transformation committees; Member of the audit, risk, remuneration and nomination committees.

Appointed as director on 1 September 2005.

Appointed as lead independent director in 2021.

Directorships

The Foschini Group Limited.

Expertise and experience

Human resources and remuneration. Fatima is an academic, experienced company director and a registered industrial psychologist. She is an emeritus professor at the University of the Western Cape, having also served as Dean of the Faculty of economic and management sciences.

Specific contribution to the Board

Fatima has served as a non-executive director on the board of large listed companies, particularly in the retail sector. She has built up extensive business experience over the years, particularly in the area of Remuneration, Human Capital, and ESG, and has added real value to the board in these areas. Her strong academic qualifications and experience provided her with extensive expertise in these areas. She performed similar roles for other listed and unlisted entities over a number of years.

BRENDAN DEEGAN (61)

B.Comm, CA(SA), CA (Ireland)  
*Independent non-executive director*  
Member of the audit, risk, remuneration and nomination committees.

Appointed as director on 15 August 2022.

Expertise and experience

Brendan is a chartered accountant registered in Ireland and South Africa and is a former partner of PricewaterhouseCoopers (PwC) in South Africa. His roles at PwC included head of the South Africa and Africa audit/assurance practices, chair of the Africa governance board and head of the global internal audit practice. He was involved with and advised many large multinational companies over a number of years.

Specific contribution to the board

Brendan is an experienced accountant and former auditor with expertise in financial reporting, leadership and governance, and assurance and risk.

TAPIWA NJIKIZANA (47)

CA(SA), JSE Registered IFRS Advisor  
*Independent non-executive director*  
(Zimbabwean)  
Member of the audit, risk, remuneration and nominations committees.

Appointed as director on 19 August 2019.

Directorships

W.consulting SA (Pty) Ltd, Sasfin Holdings Limited and Sasfin Bank Limited.

Experience and expertise

Tapiwa is an executive director at W.consulting SA (Pty) Limited. He previously served as a non-executive director on the board of Iliad Africa Limited and Mercantile Bank Holdings Limited.

He was recognised for his contribution to the consulting industry receiving the “Top Consulting Professional” at the Sanlam South African Professional Services Awards 2018.

Tapiwa held roles in leading industry bodies and committees including being a member of the Accounting Practice Committee of SAICA, and as a member of the Financial Reporting Investigation Panel (formerly GAAP Monitoring Panel) of the JSE.

Specific contribution to the Board

Tapiwa is an experienced non-executive director with expertise in the financial services sector, including experience chairing audit and technology committees for other entities, as well as experience on the remuneration and nominations committees of the company.
